CHAIRPERSONS FOREWORD

Mr. Speaker Sir,

The Agricultural and Livestock Extension Services Bill, 2022 (Senate Bills NO. 12 of 2022) seeks to provide for the agricultural and livestock extension services and establish the Agricultural and Extension Service.

Mr. Speaker Sir,

The Agricultural and Livestock Extension Services Bill (Senate Bills No. 12 of 2022) was published on 30th December, 2022 and read a First Time in the Senate on Wednesday, 15th February, 2023 and thereafter the Bill stood committed to the Standing Committee on Agriculture, Livestock and Fisheries for consideration.

In compliance with the provisions of Article 118 of the Constitution and Standing Order 145 (5) of the Senate Standing Orders, the Committee proceeded to undertake public participation on the Bill. In this regard, the Committee published an advertisement in the Daily Nation and Standard newspapers on Tuesday, 21st February, 2023 inviting members of the public to submit written memoranda to the Committee on the Bill. Additionally, the Committee sent invitations to key stakeholders inviting them to submit their comments on the Bill.

The Committee received written submissions from two (2) stakeholders, namely the Ministry of Agriculture and Livestock Development and the Kenya Plant Health Inspectorate Service (KEPHIS).

Mr. Speaker Sir,

The Committee thereafter proceeded to consider extensively the provisions of the Bill and the submissions received thereon. Based on its deliberations, the Committee has made various observations which are set out in Chapter Three of this Report. Notably, the final recommendation by the Committee is that the Senate proceeds to consider the Agricultural and Livestock Extension Services Bill, 2022 (Senate Bills No. 12 of 2022) with amendments.

Mr. Speaker Sir,

May I take this opportunity to thank the Ministry of Agriculture and Livestock Development and the Kenya Plant Health Inspectorate Service for responding to our call and made their well-researched submissions which have been reviewed and taken into account into preparing this report.

Mr. Speaker Sir,

As I conclude, I commend the Members of the Committee for their devotion and commitment to duty, which made the consideration of the Bill successful.

I also wish to thank the Offices of the Speaker and the Clerk of the Senate for the support extended to the Committee in undertaking this important assignment.

Mr. Speaker Sir,

It is now my pleasant duty, pursuant to standing order 148 (1), to present the Report of the Standing Committee on Agriculture, Livestock and Fisheries on the The Agricultural and Livestock Extension Services Bill (Senate Bills No. 12 of 2022).

Signed.....

CHAPTER ONE

1.1. Background

The Agricultural and Livestock Extension Services Bill, 2022 (Senate Bills No. 12 of 2022) seeks to provide for the agricultural and livestock extension services and establish the Agricultural and Extension Service. The Bill was published on 30th December, 2022 and read a First Time in the Senate on Wednesday, 15th February, 2023 and thereafter the Bill stood committed to the Standing Committee on Agriculture, Livestock and Fisheries for consideration and facilitation of public participation. The Bill published is attached to this Report as *Appendix 2*.

The Bill proposes to set up an agricultural and livestock service which is managed by the Board of Directors. The Bill provides for the establishment, powers, composition and functions of governing bodies to oversee Agricultural and Livestock Extension Services in the country.

The Bill further provides for assistance to farmers to gain in new information and develop new abilities, as well as to apply directly on the farm the latest scientific knowledge through the transfer of technology.

The importance of agricultural extension in relation to the fight against poverty has been underscored in the Strategy to Revitalize Agriculture (SRA) (Republic of Kenya, 2004). All agricultural Extension Services Agencies need to have a standard approach and objectives in order to feed into an overall national goal. Uniform standards must be set, uniform scope of operation maintained, delivery model adopted by all agencies and extension officers trained.

Currently, there is no legal regulatory framework for Agricultural and livestock extension services in Kenya. The Bill, therefore seeks to provide a legislative framework for extension services in Kenya. The objectives of the Bill are to:

1. foster coordination in extension services research by National Government, County Governments, non-governmental organizations, learning institutions, research bodies, and other non-state actors;
2. promote the generation of high income for farmers and traders through increased production and sourcing of competitive markets;
3. for the continuous and sustained research on extension services for the development of the Agricultural and livestock industry;
4. for the adoption of sector-wide approach to the provided extension services which enables access to appropriate quality services which enables access to appropriate quality services from the best service providers and attains higher productivity, increased incomes, and standard of living to Kenyans; and for the

provision of financial support to the various players in the extension services industry.

1.2. Overview of the Bill

Clause 4 of the Bill provides for the Cabinet Secretary shall formulate and publish in the *Gazette* an agricultural and livestock extension services policy at least once every five years, for the implementation and standard delivery of extension services by the county governments.

Clause 5 of the Bill provides that the County executive committee member shall formulate and publish, in the *Gazette*, a county-specific extension services strategy. The county executive committee member shall in formulating the strategy take into account the national livestock policy formulated by the Cabinet Secretary.

Clause 8 of the Bill establishes the Agricultural and Livestock Extension Service. Whose functions include—

- (a) enhance the competitiveness of the agriculture and food industry in Kenya in an increasingly competitive world environment;
- (b) increase the long-term productivity of agriculture and food industry in Kenya while maintaining and enhancing the natural resource base on which the Counties and the National Government agricultural economy depend on;
- (c) develop new uses and new products for agricultural commodities and come up with alternative production methods to develop new crops;
- (d) improve risk management in the agriculture industry in Kenya.

In the performance of its functions, the service shall—

- (a) support agricultural research on extension services to promote economic opportunity in rural communities and to meet the increasing demand for information and technology transfer throughout the agriculture industry in Kenya;
- (b) collaborate with the county governments in —
 - i. improving the coordination and planning of agricultural research, extension, and teaching programs;
 - ii. identifying needs and establishing priorities for these programs;
 - iii. ensuring that national agricultural research, extension, and teaching objectives are fully achieved; and
 - iv. ensuring that the results of agricultural research are effectively communicated and demonstrated to farmers, processors, handlers, consumers, and all other users who can benefit from them.

- (c) maintain and disseminate information on standards for the supply of nutritious and safe food by the county governments;
- (d) facilitate the transfer of technology;
- (e) encourage the use of information communication technology by developing and packaging information in simple, easily accessible digital systems;
- (f) collaborate with international entities in order to leverage resources, priority food and agricultural interests including addressing emerging plant and animal diseases, improving crop varieties and animal breeds, and developing safe, efficient, and nutritious food systems;
- (g) mobilizing resources at the national level for investment in the development and implementation of extension services programs in the counties;
- (h) developing and coordinating intergovernmental relations mechanisms in the delivery of services related to extension services; and
- (i) providing technical assistance and capacity building to the county governments on matters relating to extension services.

Clauses 9-17 of the Bill deals with the management of the Service which is vested on the Board of Directors consisting of -

- (a) a chairperson who shall be appointed by the Cabinet Secretary;
- (b) the principal secretary responsible for matters relating to agriculture;
- (c) the principal secretary responsible for matters relating to livestock;
- (d) two persons with knowledge and experience in the field extension services nominated by the Council of County Governors;
- (e) one person representing national farm or producer organizations nominated by the Council of County Governors;
- (f) one person representing the Kenya Agricultural and Livestock Research Organization nominated by the Organization;
- (g) one member representing the National Association of Agriculture and Livestock Extension Service Providers nominated by the association;
- (h) one person representing extension services training institutions nominated the Cabinet Secretary; and
- (i) the chief executive officers.

Clause 26 of the Bill sets out the role of the county government as—

- (a) implement the National Government policy and standards relating to the extension services sector;
- (b) regulate and promote extension services within the respective county;

- (c) collect, collate and disseminate information on the extension services industry including the appropriate technology and practices to ensure maximization of yields and sales by stakeholders;
- (d) coordinate the activities of persons, organizations, and any other associations within the field of extension services;
- (e) facilitate the access by players in the extension services sector to such resources and financial support as may be necessary to promote the use and development of extension services in the respective county; and improve on the safe production and processing of, and add value to, Kenyan food and fiber resources using methods that maintain the balance between yield and environmental soundness.

Clauses 18-20 of the Bill establishes the Office of the Chief Executive Officer who shall be the secretary to the Board and shall, subject to the direction of the Board—

- (a) be responsible for the day-to-day management of the affairs of the Board;
- (b) manage the funds, property, and affairs of the Board;
- (c) be responsible for the management of the staff of the Board;
- (d) oversee and coordinate the implementation of the policies, programmes, and objectives of the Board;
- (e) cause to be prepared for the approval of the Board—
 - i. the strategic plan and annual plan of the Board; and
 - ii. the annual budget and audited accounts of the Board; and
- (f) perform such other duties as may be assigned by the Board.

FINANCIAL PROVISION

Part V (clauses 27-31) of the Bill provides for the financial provision of the Bill. The Bill proposes that the funds of the service shall include

- (a) monies appropriated by Parliament for the purposes of the service;
- (b) such monies or assets as may accrue to or vest in the service in the course of the exercise of its powers or the performance of its functions under this Act or any other written law; and
- (c) donations, grants, loans, or gifts made to the service and approved by the Cabinet Secretary for finance.

Part VI (clauses 32-33) provides for miscellaneous provisions. It provides areas in which county governments can legislate on, it also delegates powers to the Cabinet Secretary to make regulations on any matter which is necessary or expedient to be prescribed for carrying out or giving effect to the Act.

CHAPTER TWO

2.0. OVERVIEW OF PUBLIC PARTICIPATION ON THE BILL

Pursuant to the provisions of Article 118 of the Constitution and Standing Order 145 (5) of the Senate Standing Orders, the Senate Standing Committee on Agriculture, Livestock and Fisheries proceeded to undertake public participation on the Bill. The presentations were made through written memoranda.

In this regard, the Committee published an advertisement in the *Daily Nation* and *Standard* newspapers on Tuesday, 21st February, 2023 (*Appendix 3*) inviting members of the public to submit written memoranda on the Bill.

In response to the advertisement and invitations, the Committee received written submissions from two (2) stakeholders, the Ministry of Agriculture and Livestock Development (MOALD) and the Kenya Plant Health Inspectorate Service (KEPHIS).

Detailed submissions by stakeholders, organized clause-by-clause, are set out in a matrix attached as *Appendix 4*. Additionally, copies of the stakeholder submissions on the Bill are attached collectively as *Appendix 5* and numbered 1 – 2.

2.1. Submissions from the Ministry of Agriculture and Livestock Development

The Ministry outlined the following in their submission:

The object of the Bill is not clearly bringing out what the Bill intends to address, i.e., to; provide for agricultural and livestock extension services; Establish the Agricultural and Extension Service; and for connected purposes. The objects should be reviewed to provide for the establishment of the agricultural extension professional body and for regulation of extension service provision.

The National and County Agricultural and Livestock Extension Services policies and strategies are administrative functions and may not have any relation to extension service provision. This makes legislation of this responsibility unnecessary.

The Bill should be reviewed to provide for the functions that entrench professionalism in Extension Service Delivery.

The Bill be reviewed to provide strengthening of County services through the Board. Extension Services are devolved functions. By advising the CS, the service will only influence policy and not the actual extension being undertaken by the counties.

Being a devolved function, Extension services should be allocated by the County Assemblies. In the case where the service is regulating a professional body then it should generate its own fund.

There is need to have uniform regulations in the Bill to avoid heterogeneous frame by having county specific regulations for registration, license issuance and renewal.

2.2. Submissions from the Kenya Plant Health Inspectorate Service (KESPHIS)

Kenya Plant Health Inspectorate Service outlined the following in their submission:

The proposal for correction on some typographical errors and omissions that may otherwise distort the objective of the bill.

2.2.3. Amendments and Justifications on the Bill

A summary of the proposed amendments to the Bill and their justifications were provided as follows:

CHAPTER THREE

3.0. COMMITTEE OBSERVATIONS AND RECOMMENDATIONS

3.1. COMMITTEE OBSERVATIONS

The Committee made the following observations:

1. Agricultural extension has a significant role in improving agricultural productivity, boosting food security, enhancing rural livelihoods. They provide significant support to rural farmers in meeting the new challenges confronting agriculture;
2. Kenya and the world at large are faced by effects of climate change, which has significantly distorted the weather patterns. In the recent years the amount of rainfall received has been dwindling and therefore there is a need to come up with new farming methods and techniques which will bolster the harsh climatic conditions.
3. In addition, there has been a sharp rise of resistant pests and diseases which affect both crops and livestock and therefore provision of extension services to farmers will be essential in compacting these emerging challenges in the agriculture sector;
4. The passage of the Bill is essential because it addresses the issues highlighted above and therefore the committee seeks the support of the house to pass the Bill;
5. The committee concurs with the views of MOALD that Extension Services are devolved functions and therefore there is a need to amend the Bill to capture this aspect;
6. Extension services have a direct effect on food security of the Country and therefore the national Government has a role in setting policies and standards for the provision of extension services;
7. The MOALD Submitted that since extension services are devolved, the County assemblies should be tasked with the allocation of funds to the Agricultural and

Livestock Extension Service. The Committee however disagrees with the views because the Extension Service is a national government agency comprising of representatives of both the National Government and the county governments. Further, the service is tasked with performing functions of both arms of government; and

8. There were a few typographical errors in the Bill.

3.2. COMMITTEE RECOMMENDATIONS

The committee recommends as follows:

1. That, various typographical errors appearing in the Bill be corrected;
2. That, clause 5(1) be amended to replace “Livestock policy “to read “Agricultural and livestock policy”;
3. That, clause 8 and clause 14 on the functions of the Service and the Board, be amended to assign functions to both the national and the county Governments in line with the fourth Schedule of the constitution; and
4. That, clause 8(a), (b), (c) be amended to provide for both the Agriculture and Livestock sectors.

**CONSIDERATION OF THE LEGISLATIVE
PROPOSAL ON THE AGRICULTURE AND
FOOD AUTHORITY (AMENDMENT) BILL
(COMMITTEE PAPER NO. 24)**

The Committee was taken through Committee Paper No. 24 on the Legislative Proposal on the Agriculture and Food Authority (Amendment) Bill which is sponsored by Sen. James Kamau Murango, MP.

During the meeting, the Committee noted that the Bill aims to-

1. Amend Section 43 of the Agriculture and Food Authority Act, 2013 to exempt Cashew Nuts, Macadamia Nuts and Bixa Nuts from the ban on export of raw produce.
2. Provide for the establishment of export markets to farmers planting Macadamia, Cashew Nuts and Bixa Nuts because similar crops like Coffee beans are exported as raw beans therefore there should be no exceptions;
3. Provide for better prices as it will open up the market for competitive pricing because there would be no requirement to seek approval from the Cabinet Secretary on export of raw nuts;
4. Enable farmers to add value to by-products such as macadamia kernels which are currently being disposed off. It will also stop smuggling of Macadamia Nuts to neighbouring countries which has been denying Kenya foreign exchange earnings.

Committee Resolution

The Committee considered the Legislative Proposal and unanimously resolved that the Bill should be published.

MIN/SEN/SCA/073/2023: - MEETING WITH THE ETHICS AND ANTI-CORRUPTION COMMISSION ON THE EACC GRAFT INVESTIGATION ON WEST KANO IRRIGATION SCHEME

The Committee was taken through the presentation on the background of EACC as follows:

1. That, the EACC received a report on 19th August, 2015 that three officials of West Kano Irrigation Scheme had embezzled funds which had been released to the Scheme by the Government through the Ministries of Agriculture and Water & Irrigation under the Economic Stimulus program in 2009/2012 FY.

The following are the findings of the investigation by Ethics and Anti- Corruption Commission:

1. That, the West Kano Irrigation Scheme was established in the year 1974 and started operating in 1976. The Scheme is owned by 837 rice farmers organized into 59 groups. The total acreage of the Scheme is 2,230 acres;
2. That, the Scheme received a grant of **Kshs. 54,331,938.00** under the Economic Stimulus Program in the FY 2009/2010 to be advanced to farmers to improve rice production;
3. That, the grant was provided in form of cash disbursements and farm inputs, which were channeled through the Ministries of Agriculture and Water & Irrigation;
4. That, the Scheme members received cash advances totaling to **Kshs. 25,573,847.00** for tiling, seed-bed preparation and transplanting; spraying, harvesting; Post-Harvest Activities-drying rice, packaging & storage, based on farm acreage;
5. That, the Scheme received **Kshs. 11,691,690.00** for operation and maintenance meant for piping, pumping of water, dykes, water pans, electricity, canals and access roads. A further **Kshs. 27,966.00** was provided for loading and off-loading of farm inputs;
6. That, the Scheme farmers received farm inputs worth **Kshs. 17,038,445.00** based on farm acreage. The inputs included chemicals, rice seeds and fertilizer;
7. That, on **30th December, 2010**, the Scheme members formed a Revolving Fund to ensure sustainability. The fund was composed of four officials, who included a Chairperson, Secretary, Treasurer and an official from the National Irrigation Board. The officials opened a bank account at Kenya Commercial Bank for the revolving fund;
8. That, on **31st December, 2012**, the Revolving Fund received a grant of **Kshs. 18,468,752.20** into its Kenya Commercial Bank account from the Ministry of Cooperative Development and Marketing; and
9. That, on **20th March, 2013**, the Scheme Farmers met and resolved to share the grant of **Kshs. 18,468,752.20** amongst themselves based on farm acreage at the rate of Kshs. 8,140 per acre.

The Committee was informed that the field investigation was complete and the file was undergoing review to inform appropriate recommendations.

**CONSIDERATION OF THE PROGRESS
REPORT ON THE PENDING
LEGISLATIVE BUSINESS BEFORE THE
COMMITTEE**

The Committee deferred this agenda to a later date.

**CONSIDERATION OF THE MATRIX OF
THE SUBMISSIONS ON THE
AGRICULTURAL AND LIVESTOCK
EXTENSION SERVICES BILL, 2022
(SENATE BILLS NO. 13 OF 2022)**

The legal counsel took the members through the matrix of submissions on the Agricultural and Livestock Extension Services Bill, 2022 (Senate Bills No. 13 of 2022 as follows:

No.	Clause	Stakeholder	Proposed amendment and rationale	Observations/Comments
1.	2	Ministry of Agriculture (MOA)	To amend the interpretation of extension services- The Bill does not clearly bring out what extension services are; The Bill under clause 2 provides that - Extension services means-the agriculture and extension service. Clause 6 further establishes the Agricultural and Extension Service. Proposal Delete the definition	The Extension Service established under clause 6 is a body cooperate mandated in regulating the extension services industry. While under clause 2 the definition of extension services is for the purposes of limiting the application of the Act to only the extension services that are offered in the agriculture and livestock industry
2.	3- Objects (Long title)	Ministry of Agriculture (MOA)	It is not clearly bringing out what the Bill intends to address. The provides for agricultural and livestock extension services; establish the Agricultural and extension Service	The committee may consider amending to; To provide for the agricultural and extension services sector;

			Proposal Review the objects of the Bill to provide for establishment of a professional body and for regulation of extension services.	
3.	Part I, Clause 3 (a)- Objects.	KENYA PLANT HEALTH INSPECTORATE SERVICE (KEPHIS)	Proposal Amend section 3(a) to correct the typographical error to pluralise learning institution.	The committee may approve the proposal to correct the typing error.
4.	Part II- National and County Agricultural and Livestock Policy and strategy.	MOALD	Development of Policies and strategies are administrative functions and may not have any relation to extension service provision. Legislating this responsibility is unnecessary Proposal Delete this part	1. Extension services have a direct effect on food security of the Country and therefore the national Government has a role in setting policies and standards for the provision of extension services.
5.	Part II, Clause 4 (2) (a), (b), (d), (e), (g) National Extension services Policy.	KEPHIS	Amend to correct the typographical error.	The committee may approve the proposal to correct the typographical error.
6.	Clause 5(1)		The section refers to Livestock policy. This is a typographical error which may be corrected. Proposal	The Committee may approve the amendment bring clarity.

			Amend to read; The agricultural and livestock policy. to the policy referred to.	
7.	Clause 8 Functions of the Service.	MOALD	Commodity value chain development, marketing and de-risking of actors are functions provided for in crops and Tea Act. Review to provide for functions that entrench professionalism in extension service providers.	Extension Services are offered to all crops and therefore certain aspects may be also captured in other Acts. However, purpose of the Bill is to come up with a standalone legislation providing for agricultural and livestock extension services.
8.	Part III, Clause 8 (a), (b)		The Clause refers to agriculture and food industry. It therefore leaves out the livestock industry. Proposal Consider, amending covers both the agriculture and livestock sectors.	The committee may approve this proposal to covers both the agriculture and livestock sectors.
9.	Part III Section 8 (c)		The Clause refers to agriculture and food industry. It therefore leaves out the livestock industry. Proposal Consider, amending covers both the agriculture and livestock sectors.	The committee may approve this proposal to covers both the agriculture and livestock sectors.

10.	Part III, Clause 10 (c)		Amend to correct the typing error on the word principal.	The committee may approve the proposal to correct the typographical error.
11.	Clause 14 Functions of the Board.	MOALD	Extension Services are devolved functions. By advising the Cabinet Secretary the Service will only influence policy and not the actual extension being undertaken in the counties. Proposal Review to provide for strengthening of County services	Extension Services are devolved functions and therefore there is a need to amend the Bill to capture this aspect.
12.	Part v- Financial Provisions	MOALD	Extension is a devolved function and as such the funds should be allocated by the County Assemblies and the Service is regulating a professional body then it should generate its own fund	Extension Service is a national government agency comprising of representatives of both the National Government and the county governments. Further, the service is tasked with performing functions of both arms of government.
13.	Part VI- Miscellaneous Provisions.	MOALD	Having county specific regulations for registration, licensing issuance and renewal will result in very heterogeneous frame against the intention of the Bill. Proposal	The Bill provides for Enactment of county specific legislations and further gives the Cabinet secretary powers to make regulations.

			Require Making of uniform regulations

Committee Observations

The Committee observed that:

1. The Ethics and Anti-Corruption Commission do not share/submit progress reports on cases to complainants they however do quarterly/annual reports to Parliament.
2. The Ethics and Anti-Corruption Commission is short staffed hence not being able to handle the many cases that come about. This has made it necessary for EACC to handle cases according to the value of subject matter.

Committee Resolutions

The committee resolved that:

1. The Ethics and Anti-Corruption Commission provides detailed information on the Mismanagement of tractors and also discuss the same matter on tractors with the petitioner.
2. The report on the Agricultural and Livestock Extension Services Bill, 2022 (Senate Bills No. 13 of 2022) be adopted on Tuesday March, 2023.
3. The Cabinet Secretary Ministry of Water, Sanitation and Irrigation be invited for a meeting on the petition regarding the EACC graft investigation on the West Kano Irrigation Scheme on Wednesday, 29th March, 2023.

MIN/SEN/SCA/043/2023:-

BRIEF BY THE PETITIONERS ON THE ETHICS AND ANTI-CORRUPTION COMMISSION (EACC) ON THE GRAFT INVESTIGATION ON THE WEST KANO IRRIGATION SCHEME

The Committee was taken through Committee Paper No.11 on the Petition. The Committee thereafter invited the petitioner to make his presentation.

In his presentation, the petitioner drew the attention of the Committee to the West Kano Irrigation Scheme (The SCHEME) graft. He explained that the grafts had generated tensions, economic melt-down and acrimony in the society. The scheme is situated in Kisumu County, Kadibo Sub County, Kawino North Location and has a land acreage of 2230Ha.

He informed the Committee that between 2009 and 2021, the scheme had received the following funds:

- a) Rehabilitation Fund (the Government of the republic of Kenya);
- b) Economic Stimulus Package Fund (the Government of the Republic of Kenya);
- c) Farmers Saving Fund (Farmers);
- d) Farm Machineries/Accessories (13 Tractors) Fund (the Government of the Republic of Kenya, the Government of the Republic of Japan); and
- e) Rice Sales Fund (the Government of the Republic of Kenya).

Issues raised by the petitioner on the funds are:

1. The scheme has never been audited since inception and EACC is not willing to audit the scheme;

2. On August 19th 2015, the petitioner reported the first deeply entrenched West Kano Irrigation Scheme Farmers Revolving Fund and the National Irrigation Board Graft. (EACC Report No. 52966 Sub file covering Report (EACC/KSM/FL/NO/89/2015). The graft involved the Government Rehabilitation Fund, Economic Stimulus Package Fund and the Farmers Own Savings Fund. EACC Western Regional Office Kisumu received the report and launched an investigation and that the EACC Western Regional Office, Kisumu has forever continued to investigate the Graft. No conclusion has been made to date on the EACC investigations of the scheme grafts;
3. The Second West Kano Irrigation Scheme Cooperative Society Limited Graft to EACC Western Region Office, Kisumu (EACC Report No. 542851) was reported by the petitioner. The graft involved misappropriation of tractors and accessories granted by the Government of the Republic of Japan. West Kano Irrigation Scheme was granted 13 tractors and a number of accessories which again were embezzled and the program stalled; and
4. The Office of the Ombudsman Western Regional Office, Kisumu noted with great concern as indicated on their Letter to the Scheme Manager on 28th September, 2017 which states that "Upon careful analysis of the response(s), it emerged that the same was shrouded with some inconsistencies which in their view presented that it might amount to allegations of corruption". The Commission on Administrative justice terminated the cases citing that the EACC Western Regional Office confirmed having rendered to them the requisite legal advice towards resolution of the matter.

The petitioners prayed that the Committee:

1. Carry out a thorough financial inspection of the Scheme between 2007-2021;
2. Carry out institutional Audit of the schemes since inception;
3. Carry out Forensic (In depth) audit of all officials involved in the management of the scheme between 2007-2021;
4. Introduce an Act in Parliament to regulate Autonomy of EACC Branches/Regional offices and create one centralized management system as EACCs current management system has failed to reduce corruption;
5. Notify EACC, Kisumu Regional Office and Ombudsman's Regional Office, Kisumu to carry out their responsibilities according to the Constitution;
6. Table an Act in Parliament to establish Kenya National Farmer's Commission to champion for the rights of Farmers in Kenya; and
7. Set up a team of experts to identify, establish gaps in the current scheme management system and recommend the best management system and practices to curb excessive mismanagement.

Committee Observations

- (i) The Committee observed that the petitioner appeared in the National Assembly on the same issue and noted that he was on the right track since the issue of EACC is not devolved; and
- (ii) There was need for the Committee to address the legislative gaps affecting the farmers so as to protect their rights.

Committee Resolutions

The Committee resolved to invite the other stakeholders of the petition including the EACC, Irrigation Authority of Kenya and the Department of Irrigation to shed more light on the Petition and thereon formulate a report with its recommendations on the Petition.

**CONSIDERATION OF THE LEGISLATIVE
PROPOSAL ON THE COFFEE BILL
(COMMITTEE PAPER NO. 12)**

The Committee was taken through Committee Paper No. 12 on the Legislative Proposal, the Coffee Bill, 2023 a committee sponsored Bill.

During the deliberations the committee noted that the Bill aims to-

1. promote a globally competitive coffee industry;
2. provide a framework for the registration and licensing of various players within the coffee sector;
3. delineate the roles of the National and County Governments in the regulation, development and promotion of the coffee sector;
4. promote the vertical integration of the coffee value chain for the purpose of achieving economies of scale and managing risk;
5. promote evidence-based coffee research and the delivery of extension services for the development of the coffee sector;
6. provide a framework for -
 - (i) establishment of a coffee development levy; and
 - (ii) sustainable funding of the coffee sector; and
7. provide a mechanism for dispute resolution within the coffee sector.

Committee Resolution-

The committee considered the legislative proposal and unanimously resolved that the Bill should be published.

MIN/SEN/SCA/045/2023:-

**PRESENTATION OF THE BUDGET POLICY
STATEMENT BY THE PARLIAMENTARY
BUDGET OFFICE (COMMITTEE PAPER NO. 13)**

The Committee was taken through the brief on the BPS.

After presentation members made the following observations -

OBSERVATIONS

- (i) that the 2023 BPS have been prepared against a backdrop of global economic slowdown occasioned by a number of factors including; the ongoing Russia-Ukraine conflict, high global inflation, lingering effects of the COVID-19 pandemic, and persistent supply chain disruptions;
- (ii) that the 2023 BPS has been submitted at a time when the Country's economy is facing a number of challenges such as the prolonged drought which has affected agricultural output and the prevailing high cost of living and amid government's plans to introduce austerity measures intended at curtailing accumulation of debt;
- (iii) that the Kenyan economy remains highly dependent on the agriculture sector, contributing on average 21.4 percent of the GDP directly, forming approximately 65 percent of Kenya's total exports and has the highest employment multiplier in the economy;

- (iv) the agricultural productivity in the country has been declining largely occasioned by the prolonged drought as a result of failed rain and high global fertilizer prices resulting in severe food shortage;
- (v) that the spread of the COVID- 19 pandemic worsened the situation with world fertilizer prices having more than doubled in the past two years, affecting productivity of Kenyan farmers;
- (vi) that agriculture sector majorly depends on efficient market supply systems to enable farmers' access to local and international markets. The market disruption has impacted negatively on the Agricultural sector;
- (vii) that Agriculture Sector is a Devolved function as per Schedule 4 of the Constitution and Counties are not allocating adequate resources to the Agriculture, Livestock and Fisheries Sector yet it is the highest contributor to GCP;
- (viii) that inadequate financial resources for the agricultural sector limits increasing production and investment in value addition activities in agriculture;
- (ix) that the Agricultural sector being one of the five core thematic areas that are expected to have the highest impact at the bottom of the economy, five policies of the government have been given priority, however the resources towards the same are still inadequate and still below the requirement of 10% resource allocation;
- (x) the Agriculture Sector has a total allocation of Kshs. 75.6 billion, Kshs. 85.6 billion and Kshs. 91.6 billion for FY 2023/24, FY 2024/25 and FY 2025/26 respectively. This comprises of Kshs.32.2 billion, Kshs.34.5 billion and Kshs.36.5 billion for recurrent expenditure and Kshs.43.4 billion, Kshs.51.1 billion and Ksh.55.0 billion for development expenditure for the same period;
- (xi) counties benefit from Additional allocations from the development partners in form of loans and grants to support agriculture, Livestock and fisheries sector as conditional allocations;
- (xii) Agriculture, Livestock and Fisheries sector will receive an additional allocation of Kshs.2,965.7 million towards the Sweden- Agricultural Sector Development Support Programme (Kshs.72.7 million), World Bank - Emergency Locust Response Project (Kshs. 2,302.6 million), Kenya Livestock Commercialization Project (Kshs. 344.3 million) and Aquaculture Business Development Project (Kshs. 245.9 million); and
- (xiii) the resources provided in Agriculture sector under the BPS may not be adequate to realize the Bottom-Up Economic Transformation Agenda.

RECOMMENDATIONS

In view of the above observations, the Committee made the following Policy Recommendations; –

- (i) The National Treasury should provide additional funding to reduce the funding gap on the budget to the state departments and base it on the Maputo declaration of 10% of the whole budget and this should be replicated at the County levels, owing to that the policies under the sector are direct drivers in the achievement of the Bottom- Up transformation Agenda.
- (ii) The County Governments should allocate resources in support of the National Government Policy of reducing post-harvest losses in the Agriculture Sector;
- (iii) The County Governments need to have a data bank of farmers to ensure the intended beneficiaries receive the support to avoid mismanagement of the subsidy.
- (iv) The National government should have plans and strategies in place and well espoused in the budget policy statement with the objective of making the country food and nutrition secure.
- (v) The Ministry of Agriculture, Livestock, Fisheries and Cooperatives to strengthen the

support services including agricultural extension services for improved and sustainable productivity of agriculture. Though the function is devolved, the committee resolved for a push for a conditional funding as a grant to the Counties.

- (vi) Arising from the worsening drought conditions, the National government should facilitate more food supply in northern Kenya and other regions and enhanced coordination between National and County Governments, private sector and development partners through the National Steering Committee on Drought Response to cushion communities affected by drought, especially in the worst-hit arid and semi-arid (ASAL).
- (vii) Climate change and lack of extension services- In order to promote agricultural extension services, the National Government should provide a conditional grant to county governments towards the extension services programme to ensure farmers get appropriate production techniques. This will maximize yield in agricultural production, The National government is to come up with a policy on provision of agricultural services and may provide funding support where necessary.
- (viii) Water harvesting for irrigation- The provision of water for irrigation in addition to the provision of subsidized inputs and extension services can be a wholesome solution to the current challenge of agricultural productivity.
- (ix) Agricultural extension service is a critical tool for improving productivity and therefore, Counties must take up its role and facilitate agricultural extension officers to carry out their activities.
- (x) High post-harvest losses- The National Government should arrest the huge post-harvest losses and effectively addressed as a strategy to achieve food Security

Committee Resolutions

The secretariat was directed to formulate a report on the budget brief to include the Committee recommendations as afore-mentioned to be submitted to the Committee of Finance and Budget, which should be signed by the Chairperson.

MATTERS ARISING

There were no matters arising.

MIN/SEN/SCA/020/2022:-

CONSIDERATION OF THE LEGISLATIVE PROPOSAL ON THE AGRICULTURAL AND LIVESTOCK EXTENSION SERVICES BILL, 2022 (COMMITTEE PAPER NO.4)

The Secretariat presented Committee Paper No. 4 on the on the legislative proposal on the Agricultural and Livestock Extension Services Bill, 2022.

The Committee was advised that once the legislative proposal has been published, it will be read a first time on the floor of the House, and thereafter committed to the Committee for further processing including, public participation and proposing any amendments as the Committee may recommend.

Committee Observation

The Committee observed that the bill would create a mechanism where counties with agricultural activities and livestock extension services would be able to share the resource through regional cooperation especially at the boundaries.

Committee Resolution

The committee noted the contents of the paper; and recommended the legislative proposal for publication.

MIN/SEN/SCA/021/2022:-

CONSIDERATION OF THE EXIT REPORT OF THE COMMITTEE OF THE 12TH PARLIAMENT (COMMITTEE PAPER NO.5)

The Committee was taken through Committee Paper No. 5 on the Exit Report of the Committee of the 12th Parliament.

Achievements

The paper summarized some of the key legislative business transacted during the session and a notable key achievement was the consideration and publication of Bills to amend the Crops Act, 2013 so as to unbundle the regulation and management of major crops that fall within the ambit of the Agriculture and Food Authority (AFA) and establish stand-alone agencies for their regulation.

Challenges

Some of the challenges faced were quorum hitches, delays in receipt of information from the Ministry, budgetary constraints and delays in processing of legislative business by the National Assembly.

Priority area (s) for the 13th Parliament

Publication of Bills to amend the Crops Act, 2013 so as to unbundle the regulation and management of major crops that fall under the ambit of the Agriculture and Food Authority (AFA) and establish stand-alone agencies for their regulation.

The committee noted the contents of the paper and resolved to consider it into details during Committee induction retreat.

MIN/SEN/SCA/022/2022:-

CONSIDERATION OF THE OF THE COMMITTEE WORKPLAN (COMMITTEE PAPER NO. 6)

The Committee was taken through Committee paper No.6 - The draft work plan for November, 2022. The Committee raised concerns that some of the scheduled meetings would coincide with the East Africa Legislative (EALA) games.

The Committee noted the contents of the paper. The secretariat was advised to check with the calendar of EALA games and reschedule some meetings in consultation with the chairperson.

MIN/SEN/SCA/023/2022:-

ANY OTHER BUSINESS

The following issues were discussed under any other business-

1. Referral of a Statement

The Committee was informed that by a letter dated 7th November, 2022, the Speaker referred a Statement on the state of rice farming in Kisumu County to the Committee by Sen. (Prof.) Tom Ojienda, SC, MP.

2. Posting of Senators Photos on Social Media

The media relations officer was urged to ensure that when posting photos on the Parliament facebook page, the Senators are referred by their rightful names and counties.

3. Challenges from New KPCU on Fertilizer Subsidy

The Committee noted that by a letter dated 27th November, 2022 the stake holders of the new KPCU indicated that they are charged more on subsidized fertilizer than the recommended price.

MEMORANDUM OF OBJECTS AND REASONS

The principal object of this Bill is to provide for the policy and institutional framework within which the agricultural and livestock industry operates by among others establishing the Agricultural and Livestock Extension Service, which will be managed by a Board of Directors. Agriculture is the backbone of our economy. Majority of Kenyans depend on agriculture either directly by feeding their families or through trading of agricultural and livestock commodities to generate an income. Unfortunately, over the years the returns have been dwindling due to mainly poor performance of both crops and livestock which can be attributed to climate change, poor production methods, pest and diseases among others.

There is therefore a genuine need to set up a policy and institutional framework to support and guide the activities, operations, and interactions within the industry with the aim that the growth of the industry will result to a strengthened agricultural economy for the various counties across the country.

The highlight of this Bill is the setting up of a body which will be dedicated towards coming up with policies and strategies on extension services. The Bill proposes to invest in research so as come up with crops and livestock breeds that will mature fast and also be able to withstand the current harsh climate. It sets up the roles of the county governments which will be to implement the national government policy in the counties and also to coordinate various extension services at the county level.

Part I (clauses 1-3) contains preliminary matters. It contains the short title, interpretation of terms and the object of the Act.

Part II (clauses 4-5) provides for the National Agricultural and livestock policy and strategy which will guide both the national and the county governments in executing their mandates in relation to extension services.

PART III (clauses 6-25) provides for the establishment, functions and powers of the Agricultural and Livestock Service. It further provides for the composition and qualifications for appointment of the members of the Service. In addition, it provides for the office of the chief executive officer of the Board and the secretariat.

Part IV (Clause 26) contains provisions related to the role of county governments in regulating extension services.

Part V (clauses 27-31) sets out the financial provisions of Service. It sets out the sources of funds for the service. It also provides for the preparation of annual estimates of income and expenditure of the Board. It further provides for the period of the financial year of the Board and the preparation and auditing of its accounts.

Part VI (clauses 32-33) Sets out the miscellaneous provisions. It sets out areas in which counties can legislate on in regards to extension services and also delegates powers to the Cabinet Secretary to make regulations.

The Second Schedule contains provisions relating to meetings of the Board and the conduct of such meetings.

Statement on the delegation of legislative powers and limitation of fundamental rights and freedoms

Clauses 33 of the Bill does delegates powers to the Cabinet Secretary for the purpose of giving effect to the provisions of the Act. The Bill does not limit fundamental rights and freedoms.

Statement on how the Bill concerns county governments

Agriculture is a devolved function set out in paragraph 1 of Part 2 of the Fourth Schedule to the Constitution. The Bill provides for extension Services which is a key aspect in the production of crops and livestock. The Bill seeks to ensure that extension services are developed and offered to the farmers in an accessible and effective manner.

The Bill therefore concerns county governments in terms of Articles 110(1) (a) of the Constitution.

Statement that the Bill is not a money Bill, within the meaning of Article 114 of the Constitution

This Bill is not a money Bill within the meaning of Article 114 of the Constitution.

Attack Kololo was believed to have been involved in Al-Shabaab attack in which Tebbut was killed and his wife kidnapped

DPP: Kololo was wrongfully jailed for murder of Briton

Prosecution says the suspect's conviction was based on hearsay evidence

Mr Ali Kololo, who was accused of being involved in the killing of Mr David Tebbut and the abduction of his wife Judith. FILE INATION

edly stolen from Ms Tebbut and their connection to Kololo and the offence of robbery with violence that he faced.

Owing to these reasons, the DPP has urged Malindi High Court Judge Stephen Githinji to find it unnecessary to use the additional evidence in the case, noting that Kololo's appeal can fairly be re-

solved without considering it.

"The DPP denies knowledge or possession of any additional and exculpatory material throughout the trial and is entitled to the opportunity to adduce evidence in rebuttal, but which process is unnecessary, given that the appeal has been conceded without reaching the new evidence. Reasons whereof the appeal is allowed, the conviction is quashed, the sentence set aside and the appellant set free," the prosecution said.

Yesterday, Mr Olaba told the court that the new evidence indicates that his client did not put on the tanga shoes that allegedly connected him to the crime.

"The complainant did not identify Kololo as the perpetrator. The

offence of robbery with violence had not been proved at the end of the trial because Ms Judith told the magistrate during her testimony that the items stolen from her were returned. The items were not recovered from Kololo," said Olaba.

Kololo's jailing was based on this evidence as the trial magistrate ruled that the tanga shoes were his and the impressions found at the scene were made by them. However, evidence produced in court by an expert witness from the UK indicated there was no evidence the shoes belonged to Kololo.

The judge allowed Kololo's application for bond pending appeal, setting it at Sh100,000 with one surety of a similar amount.

BY BRIAN OCHARO

Director of Public Prosecutions Noordin Haji has conceded that Ali Kololo may have been wrongly convicted over the murder of British national David Tebbut and the kidnapping of his wife Judith Tebbut in 2011.

Kololo was arrested in 2012 after a group of Somali men believed to have been Al-Shabaab militants invaded a luxury resort and shot dead Mr Tebbut and abducted his wife, who was released six months later, after her son paid ransom.

Ms Tebbut's kidnapping was one of the cases believed to have triggered the Kenya Defence Force Operation Linda Nchi in October 2011, in which they went into Somalia to fight the Al-Shabaab. The court sentenced Kololo to death for kidnapping robbery with violence. He given a further seven years' imprisonment for the kidnapping.

Kololo has since appealed the sentence and wants it quashed. His appeal followed discovery of new evidence ob-

tained from the United Kingdom, which he believes will absolve him of any wrongdoing. Through his lawyer Alfred Olaba, Kololo says the evidence was erroneously omitted during his trial, leading to his unfair conviction.

In a notice of concession, senior prosecution counsel Jami Yamina confirmed the DPP's position that Kololo was convicted based on hearsay evidence that did not properly link him to the offence.

"A court, properly applying its mind to the facts and the law, could not possibly arrive at factual findings and conclusions that the magistrate reached, that are

not based on the evidence on record or are purely based on hearsay testimony thereby rendering the conviction unsafe," said Mr Yamina.

He added: "Evidence adduced, when compared to the findings of the magistrate court, it is clear they are not based on records or submission of the counsel."

Further, Mr Yamina stated that senior Metropolitan Police Detective Neil Hibberd's testimony on the arrest and the crucial "tanga" (plastic) shoes evidence that linked Kololo to the scene of crime was purely hearsay.

In the trial, in which Kololo was sentenced to death, Mr Hibberd had been described as a key witness, but the DPP has affirmed that his evidence was based on hearsay and that he did not disclose the source of his information regarding the arrest and shoes.

"This case was purely based on circumstantial evidence, and the DPP, having looked at this appeal, conceded to it," said Mr Yamina.

According to the DPP, no further evidence or witness was called on the circumstances surrounding the recovery of the items alleg-

This case was purely based on circumstantial evidence, and the DPP, having looked at this appeal, conceded to it.
