1. Project Information and Overall Performance

1.1 Name and registered office

Name:

The project's official name is National Information Platform for Food Security and

Objective

The key objective of the project is to Strengthen the information systems for food security and nutrition to improve the analysis of data to better inform the strategic decisions to prevent malnutrition and its consequences,

Address

The project headquarters offices are Nairobi (city), Nairobi City County, Kenya. The address of its registered office is: Real Towers Building, Hospital Road, Upperhill

Contacts: The following are the project contacts

P.O. Box 30266 -00100 Nairobi, Kenya Telephone: (254)-20-2911000/2911001

E-mail: info@knbs.or.ke Website: www.knbs.or.ke

Project information and overall performance (continued)

1.2 Project Information

Project Start Date:	The project start date is 1st August 2019	
Project End Date:	The project end date is 31st December 2022	
Project Manager:	The Project Manager is Mr. James Gatungu	
Project Sponsor:	The project sponsor is European Union	

1.3 Project Overview

Line Ministry/State Department of the project	The project is under the supervision of the National Treasury & Planning through the State Department for Planning.
Project number	FOOD/2017/393-022
Strategic goals of the project	The strategic goals of the project are as follows: (i) Maximise the analysis and interpretation of existing information and data on food security and nutrition to improve understanding of the factors that influence nutrition outcomes. (ii) Identify information/data gaps in food security and nutrition. (iii) Contribute to monitoring national and sub-national progress in preventing malnutrition;
	(iv) To build capacity both at national and subnational levels to manage, analyse information and data from relevant sectors.
Achievement of strategic goals	The project management aims to achieve the goals through the following means: i. Create a central data repository that acts as a resource of information for analysis.
	 Strengthen the capacity to analyse, interpret data and generate policy briefs to better track the progress of nutrition outcomes.
	 Disseminate information for better use in designing and implementing food security & nutrition related policies.
Other important background information of the project	The project is being implemented by the Kenya National Bureau of Statistics (KNBS) in partnership with Kenya Institute for Public Policy Research (KIPPRA) and in collaboration with other

	stakeholders with interest in food security and nutrition. National Information Platform for Food Security and Nutrition (NIPFN) is a country-led and country-owned platform that aims to facilitate multi-sectoral and multi-stakeholder dialogue on food security and nutrition by supporting the use of existing information and data to develop or refine policies and programmes.
Current situation that the project was formed to intervene	The project was formed to intervene in the following areas: (i) Lack of a repository for multi-sectoral datasets to create and operate an information platform for nutrition. (ii) Low capacity to monitor national objectives on preventing under-nutrition and monitoring nutrition investments (iii) Limited capacity of policy makers and programme planers to make better use of evidence based policy making processes.
Project Duration	The project started on 1st August 2019 and is expected to run until 31st December 2022.

Project Information and Overall Performance (Continued)

1.4 Bankers

The following are the bankers for the current year:

(i) Kenya Commercial Bank - Moi Avenue Branch - Account Number 12408757111, whose address is as indicated below:

Kenya Commercial Bank, Kencom House, P.O. Box 48400-00100, Nairobi.

1.5 Auditors

The project is audited by the Office of the Auditor General whose address is as below: Office of the Auditor General, Anniversary Towers 3rd Floor, P.O. Box 30084-00100 Nairobi

1.6 Roles and Responsibilities

The project personnel that are currently engaged with their respective roles are as follows:

Names	Title designation	Key qualification	Responsibilities
James Theuri Gatungu	Project Manager NIPFN Project	Master of Arts (Economic Policy Management) Bachelor of Science in Statistics and Computer Science Various management and statistical related courses.	 Monitor project activities implementation against the proposed work plan, and monitoring achievements against planned milestones and deliverables; Managing finances and accounting for the project funds in accordance with the financial guidelines issued by the Government of Kenya and the Delegation of the European Union; Managing information related to the project and disseminating it to the project stakeholders; Liaising with the project partners and the funding agency to monitor project activities and expenditures; Collating information from partners, Organizing and finalizing project reports;

	/4		
:		8 2	 Organizing various committees' meetings
Samuel Kiprulo	Senior Data Analyst	Bachelor of science in Statistics Master of Arts in Economic Policy Management	 Mapping of sources of data of interest to the NIPFN Identifying the relevant/suitable data to the analysis proposed by stakeholders
			 Defining the principles for sharing and using the collected data using the KNBS regulations as well development MoUs
			 Building capacity for data analysing within the data analysis unit and government staff
			 Creating a centralised repository for data relevant to NIPFN and defining mode of operation Writing of reports from the analyzed data
Geoffrey Kebaki (Left the project on February 2022)	Senior Policy Analyst	MSc. Health Systems Management BSc. Environmental Health Higher Diploma Food	Review of food security and nutrition policies Building capacity for policy programmers and policy users
	*	Science and Inspection Diploma Environmental Health	 Facilitate dissemination of policy briefs, factsheets and communication outputs to policy makers Develop policy questions and facilitate prioritization of questions
			 Best practices on causal pathways and theories of change Participate in Interpretation of findings and reporting.
Tupege Kasongwa	Project Assistant	 MBA (HR and Strategic Management), Bachelor of Arts, Diploma in Teaching 	 Handling of the Project administrative matters. Maintaining office records, filling and

		Diploma in Business Administration.	storage. Facilitate Project compliance with statutory requirements Facilitating communication between the project and other stakeholders
Janet Ngina Arum	Senior Communications Officer	M.A Corporate Communication B.A International Relations & Marketing DIPLOMA in French	Develop & implement communication strategy Design project identity and branding Digital & online communications Events/Conference planning & management Media Relations Stakeholder Engagement
Lillian Wambui Odhiambo	Public Health Nutritionist	Master's in Public Administration - International Development BSc Food Nutrition and Dictetics	Systematic literature review; Building library of grey and published literature. Developing network of stakeholders in: universities, NGO, UN, and government. Creating an archive of indexed reports Drafting reviews on thematic areas. Developing presentations for the Policy Advisory Committee.
Wairimu	Data Manager	Msc. Information Technology management Bsc. Computer Science Certificate in Database Management, (EDMS) Development, Java EE Development and Project Management	Data Management Management of the central repository Management of the NIPFN web portal Data visualization
Edith Amondi (Left the project in September 2021)	Project Statistician	 Bachelor's Degree in Statistics, Mathematics Stata statistical software experience; STATA and R statistical software experience; 	 Collecting, aggregating and merging data sets for multisectoral analysis; Assessing the distribution of variables for application of the most appropriate

			statistical; • Analysing data using statistical software such as STATA or R by applying the most appropriate and robust statistical methods and sampling weights; • Storing and cataloguing the syntax files, the output files and any history file of analysis to create a record of the analysis done; • Creating new data sets of summary statistics for presentation in data
Eric Macharia	Project Statistician	 Bachelor's Degree in Statistics, Mathematics Stata statistical software experience; STATA and R statistical software experience; 	Collecting, aggregating and merging data sets for multisectoral analysis; Assessing the distribution of variables for application of the most appropriate statistical; Analyzing data using
			statistical software such as STATA or R by applying the most appropriate and robust statistical methods and sampling weights; Storing and cataloguing the syntax files, the output files and any history file of analysis to create a record of
			 the analysis done; Creating new data sets of summary statistics for presentation in data dashboards;
Tom Mutua	Project Finance Officer	 MBA (Strategic Management) BCOM (Finance) CPA (K) 	 Setting up and operating a financial monitoring system for all project transactions consistent with the existing procedures of KNBS.
			 Monitoring all financial transactions for the project by ensuring that any expenses are allowable against the project budget.
n 7 n			 Ensuring that government procurement procedures are adhered to.
and the second			 Drafting financial reports

Dr. Samwel Ngugi Mwenda	Project Statistician	 PhD biostatistics Msc health economics and policy Msc applied statistics Bsc mathematics and computer science R-statistical software Stata statistical software 	 Collecting, aggregating and merging data sets for multisectoral analysis; Assessing the distribution of variables for application of the most appropriate statistical; Analyzing data using statistical software such as STATA or R by applying the most appropriate and robust statistical methods and sampling weights; Storing and cataloguing the syntax files, the output files and any history file of analysis to create a record of the analysis done; Creating new data sets
			of summary statistics for presentation in data dashboards;

1.7 Funding summary

The Project was expected to run for a duration of 4 years from 2018 to 2022 with an approved budget of Euro (c) 3,499,999 equivalent to KShs 396,840,398 as highlighted in the Table below:

National Information Platform for Food Security and Nutrition Project Annual Report and Financial Statements for the financial year ended June 30, 2022.

Project information and overall performance (continued)

Below is the funding summary:

. Source of Funds

Source of funds	Donor Commitment-	mitment-	Amount r - (30)	Amount received to date – (30 June 2022)	Undraw	Undrawn balance to date
	Donor	Kshs	Donor currency Kshs	Kshs	Donor currency Kshs	Kshs
	(A)	(A')	(B)	(B')	(A)-(B)	(A)-(B)
(i) Grant						
European Union	€3,499,999	396,840,398	€1,893,769	234,030,041	€ 1,606,230	202,096,822

amounts for current year and for cumulative to- date	
2. Physical progress based on outputs, outcomes and	 a) The project units have been established and operationalized. b) Project committees have been established and operationalized. c) Data landscape analysis has been completed and a report
impacts since project commencement	 developed. d) Data of interest to food security and nutrition have been acquired and continue to be updated as new data become available
	e) Data sharing policy has been developed.
	f) Kenya National Data Archive (KcNADA) has been adopted as the centralized repository for data related to food security and nutrition.
	g) A report on Review on food security and nutrition policies an programmes has been developed and disseminated
	 An analysis of "quick wins" and reports generated including- i. An analysis on nutritional anthropometric trends in Kenya.
	 ii. An analysis of the national progress and househol characteristics associated with stunting. iii. Food security situation during Covid-19 pandemic
	 A policy brief on stunting of children under 5 years was finalize and disseminated.
	j) The project has identified and prioritized through relevan stakeholders' engagement five policy questions for analysis. Th analysis of the same is at advanced stage.
	k) A multisectoral web portal was finalized and launched on 16t June 2022. The portal disseminates food security and nutritio data and information from all stakeholders
	 Capacity assessment has been carried out to identify capacit needs of collaborating institutions in data analysis, interpretatio and policy formulation process.
	m) Communication strategy has been developed and it implementation is on-going.
,	 First Interim Narrative Report - The report was finalized which reviews the implementation of the project during the period from August 2019 to June 2021
	 Second Interim Narrative Report - The report was finalized which reviews the implementation of the project during the period from
<	 July 2021 to December 2021 p) Inception Report: This inception report reviews th implementation of the first-year activities (August 2019 – Jul
	2020) and the suggest areas of improvement in order to enhance efficiency and effectiveness. These areas cover project activities
	monitoring and evaluation, and risks and assumptions q) Quarterly Financial report - The project has been generating
	report on revenue and expenditure on quarterly basis r) Quarterly Progress Monitoring (QPM) - The project has been engaging with C4N on quarterly bases on activities

	implementation monitoring using the provided reporting tool First Audit of NIPFN Annual Financial Statements for 2019-2020- The NIPFN project was audited by the Office of the Auditor General from the 19th – 30th October 2020. Second Audit of NIPFN Annual Financial Statements for 2020- 2021- The NIPFN project was audited by the Office of the Auditor General from the 5th – 20th August 2021. U Capacity for Nutrition (C4N) Webinars: The project leam and stakeholders participated in various webinars led by the project support team C4N. The webinars were on various thematic areas including sharing experiences with other NIPN implementing countries. The country team gains knowledge on how to address project implementing challenges. V) Risk Matrix: The project also developed a Risk Matrix which highlights some of the project risk areas and mitigation measures W) Workshops and Meetings - The project team participated in various technical meetings and workshops that were relevant to the project. X) Launch of NIPFN project —The project team together with collaborating institutions launched the project and products on 19th April 2021. y) Nutrition for Growth commitments: The project participated in generation of country's commitments to the global Nutrition for Growth (N4G) summit which was hosted by Government of Japan in December 2021. The N4G initiative seeks to help countries in making commitments to facilitate the achievements of the

achievements	
5. Challenges and Way Forward	 a) Delay in commencement of the project – The project intends to make up for the delayed timeline with implementing its workplan fully. b) Delay in implementation of some activities due to emerging of the Covid-19 pandemic in March 2020 – Workplan implementation fully. c) Delay in the release of exchequer funds from the Nationa Treasury therefore hampering in the delivery of the project activities. d) Staff turnover: Senior Policy Analyst and Senior Communication Officer have left the project – Recruitment of the staff who have since left the project. c) Competing activities with collaborating partners slowing down analysis and finalization of policy papers – Focusing on quick with

1.9

Summary of Project Compliance:
The NIPFN project complied with all the applicable laws and regulations, and essential external financing agreements/covenants and did not suffer any consequences on account of non-compliance.

2. Statement of Performance against Project's Predetermined Objectives

Introduction

Section 81 (2) (f) of the Public Finance Management Act, 2012 requires that, at the end of each financial year, the Accounting Officer when preparing financial statements of each National Government entity in accordance with the standards and formats prescribed by the Public Sector Accounting Standards Board includes a statement of the national government entity's performance against predetermined objectives.

The objectives of the NIPFN project's includes:

- a) Maximize the analysis and interpretation of existing information and data on food security and nutrition to improve understanding of the factor that influence nutrition outcomes.
- b) Identify information/data gaps in food security and nutrition.
- c) Contribute to monitoring national and sub-national progress in preventing malnutrition;
- d) To build capacity both at national and subnational levels to manage, analyse information and data from relevant sectors.

Progress on attainment of strategic development objectives

For purposes of implementing and cascading the above development objectives to specific sectors, all the development objectives were made specific, measurable, achievable; realistic and time-bund (SMART) and converted into development outcomes. Attendant indicators were identified for reasons of tracking progress and performance measurement:

Below we provide the progress on attaining the stated objectives:

Project	Objective	Outcome	Indicator	Performance
National Platform for Food Security and Nutrition (NIPFN Project)	Create capacity within national institutions to operate and maintain the NIPFN	Set up NIPFN Project Management Unit (PMU), Data Analysis Unit, and Policy Unit: Establish the NIPFN Project Management Committee:	Recruitment of project staff Constitution and operationalization of committee.	This has been achieved. This has been achieved
		3. Map sources of data of interest to the NIPFN and define the principles for sharing and using data	Data landscape report developed. Census/Survey/	This has been achieved
	21		Administrative data of interest to Nutrition and Food Security is continuously requested from other data sources, data sets acquired. An additional data relevant	This has been achieved
		4. Adoption of KeNADA as a centralized repository for data related to Food Security and Nutrition has been done. This entails defining the mode of operations which	stakeholders. Data Sharing principles - Generated. KeNADA system	This has been achieved This has been achieved
		includes; type of data to be reposited; data accessibility.	available for use by the Project.	
	Strengthen capacity to track progress in meeting national objectives on undernutrition	Create or support a web interface to present summary statistics from the NIPFN. A policy review on food security and nutrition has	Portal in place Review policy in place	This has been achieved This has been achieved
	reduction, promoting food security and monitoring the investments	been developed. 3. Identify and prioritize questions for analysis and develop annual work	Policy Questions have been identified	This has been achieved

	- 3	Capacity Assessment report	

managers and monitoring and evaluation officers at the Ministries would inform policy as they can analyze and interpret data generated from the NIPFN. This is critical for consistency and avoiding duplication of efforts in interventions to reduce malnutrition.

Capacity among the policy makers and program managers in the Ministries should be enhanced for they are the technical arms in food security and nutrition interventions for sustainability. This will influence the use of information from NIPFN data by policy designers and programme implementers. This will finally ensure that the gains and outputs derived from the project have an impact after completion of project for continuity. The program planners would require exploring possible financing options of the Food security and nutrition interventions and sustainable management of the data repository within the institution setting with a view of improving on Food security and nutrition indicators for sustainable development.

In order to build a strong base and propel NIPFN activities, additional support from the Government to compliment resources provided by EU is required to ensure the sustainability of the project and enable the project to deliver on its mandate. The project can also benefit from the sourcing of complimentary budget from partners with interest in food security and nutrition issues.

2. Environmental performance

NIPFN project is anchored in KNBS and utilizes the KNBS environmental policy guiding the organisation.

3. Employee welfare

NIPFN project operates under the KNBS Human Resource Policies and Procedures manual. Among the issues under consideration is the gender ratio in the recruitment. The project staff are usually appraised annually and part of the appraisal is a training needs assessment, which feeds into the overall Bureau training plan. NIPFN project operates from the overall KNBS organisation policy on safety and compliance with Occupational Safety and Health Act of 2007, (OSHA).

4. Statement of Project Management Responsibilities

The Director General for Kenya National Bureau of Statistics and the Project Manager for the National Information Platform for Food Security and Nutrition Project (NIPFN) are responsible for the preparation and presentation of the Project's financial statements, which give a true and fair view of the state of affairs of the Project for and as at the end of the financial year (period) ended on June 30, 2022. This responsibility includes: (i) maintaining adequate financial management arrangement and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Project; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statement, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the Project; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The *Director General* of Kenya National Bureau of Statistics and the *Project Manager* for the *NIPFN* project accept responsibility for the Project's financial statements, which have been prepared on the Cash Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards.

The *Director General* of Kenya National Bureau of Statistics and the *Project Manager* for the NIPFN project are of the opinion that the Project's financial statements give a true and fair view of the state of Project's transactions during the financial year/period ended June 30, 2022, and of the Project's financial position as at that date. The *Director General* of Kenya National Bureau of Statistics and the *Project Manager* for the NIPFN project further confirm the completeness of the accounting records maintained for the Project, which have been relied upon in the preparation of the Project financial statements as well as the adequacy of the systems of internal financial control.

The Director General of Kenya National Bureau of Statistics and the Project Manager for the NIPFN project confirm that the Project has complied fully with applicable Government Regulations and the terms of external financing covenants, and that Project funds received during the financial year/period under audit were used for the eligible purposes for which they were intended and were properly accounted for.

Approval of the Project financial statements

The Project financial statements were approved by the Board of Directors of Kenya National Bureau of Statistics on 27th September 2022 and signed on its behalf by;

Director General

Enhancing Accountability

REPORT OF THE AUDITOR-GENERAL ON NATIONAL INFORMATION PLATFORM FOR FOOD SECURITY AND NUTRITION PROJECT (FOOD/2017/393-022) FOR THE YEAR ENDED 30 JUNE, 2022 - KENYA NATIONAL BUREAU OF STATISTICS

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in use of public resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure Government achieves value for money and that such funds are applied for intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, the risk management environment, and the internal controls developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations, and that its internal controls, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report, when read together constitute the report of the Auditor-General.

REPORT ON THE FINANCIAL STATEMENTS

Opinion

I have audited the accompanying financial statements of National Information Platform for Food Security and Nutrition Project set out on pages 1 to 23, which comprise of the

Report of the Auditor-General on National Information Platform for Food Security and Nutrition Project (Food/2017/393-022) for the year ended 30 June, 2022 - Kenya National Bureau of Statistics

statement financial assets and liabilities as at 30 June, 2022, and the statement of receipts and payments, statement of cash flows and the statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other important disclosures in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, the financial statements present fairly, in all material respects, the financial position of the National Information Platform for Food Security and Nutrition Project as at 30 June, 2022, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Cash Basis) and comply with the Public Finance Management Act, 2012 and the Financing Agreement No. FOOD/2017/393-022 dated 27 December, 2017 between the Republic of Kenya and the European Union.

In addition, the special account reconciliation statement presents fairly, the special account transactions and the closing balance has been reconciled with the books of account.

Basis for Opinion

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the National Information Platform for Food Security and Nutrition Project Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

Other Matter

Budgetary Control and Performance

The statement of comparison of budget and actual amounts reflects final receipts budget and actual on comparable basis of Kshs.140,000,000 and Kshs.138,432,660 respectively resulting to under-funding of Kshs.1,567,340 or 1% of the budget.

Similarly, the Management spent an amount of Kshs.82,296,910 against an approved budget of Kshs.140,000,000 resulting to an under-expenditure of Kshs.57,703,090 or 41% of the budget.

The under-expenditure affected the Project's planned activities and may have impacted negatively on service delivery to the public.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, nothing has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities which govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal controls, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Cash Basis) and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Project's ability to continue to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Project or cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Project's financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to overall governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and review of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal controls components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may

occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal controls may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty
 exists related to events or conditions that may cast significant doubt on the Project's
 ability to continue to sustain its services. If I conclude that a material uncertainty exists,
 I am required to draw attention in the auditor's report to the related disclosures in the
 financial statements or, if such disclosures are inadequate, to modify my opinion. My
 conclusions are based on the audit evidence obtained up to the date of my audit
 report. However, future events or conditions may cause the Project to cease to
 continue to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Project to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

CPA Nancy Gathungu, CBS AUDITOR-GENERAL

Nairobi

18 October, 2022

10. Significant Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

10.1 Statement of compliance and basis of preparation

The financial statements have been prepared in accordance with Cash-basis IPSAS financial reporting under the cash basis of accounting, as prescribed by the PSASB and set out in the accounting policy note below. This cash basis of accounting has been supplemented with accounting for; a) receivables that include imprests and salary advances and b) payables that include deposits and retentions. The financial statements comply with and conform to the form of presentation prescribed by the PSASB.

The accounting policies adopted have been consistently applied to all the years presented.

10.2 Reporting entity

The financial statements are for the NIPFN project under National Government of Kenya. The financial statements encompass the reporting entity as specified in the relevant legislation PFM Act 2012.

10.3 Reporting currency

The financial statements are presented in Kenya Shillings (Kshs), which is the functional and reporting currency of the Project and all values are rounded to the nearest Kenya Shilling.

10.4 Recognition of receipts

The NIPFN Project recognises all receipts from the various sources when the event occurs, and the related cash has actually been received.

i) Transfers from the Exchequer

Transfer from Exchequer is recognized in the books of accounts when cash is received. Cash is considered as received when payment instruction is issued to the bank and notified to the receiving entity.

ii) External Assistance

External assistance is monies received through grants and loans from multilateral and bilateral development partners.

Significant Accounting Policies (Continued)

iii) Other Receipts

These include Appropriation-in-Aid and relates to receipts such as proceeds from disposal of assets and sale of tender documents. These are recognized in the financial statements the time associated cash is received.

a) Donations and grants

Grants and donations shall be recognized in the books of accounts when cash is received. Cash is considered as received when a payment advice is received by the recipient entity or by the beneficiary. In case of grant/donation in kind, such grants are recorded upon receipt of the grant item and upon determination of the value. The date of the transaction is the value date indicated on the payment advice.

b) Recognition of payments

The Project recognises all payments when the event occurs, and the related cash has actually been paid out by the Project.

i) Compensation to employees

Salaries and Wages, Allowances, Statutory Contribution for employees are recognized in the period when the compensation is paid.

ii) Use of goods and services

Goods and services are recognized as payments in the period when the goods/services are consumed and paid for. If not paid for during the period where goods/services are consumed, they shall be disclosed as pending bills.

iii) Acquisition of fixed assets

The payment on acquisition of property plant and equipment items is not capitalized. The cost of acquisition and proceeds from disposal of these items are treated as payments and receipts items respectively. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration and the fair value of the asset can be reliably established, a contra transaction is recorded as receipt and as a payment.

A fixed asset register is maintained by each public entity and a summary provided for purposes of consolidation. This summary is disclosed as an annexure to the consolidated financial statements.

c) In-kind donations

In-kind contributions are donations that are made to the Project in the form of actual goods and/or services rather than in money or cash terms. These donations may include vehicles, equipment or personnel services. Where the financial value received for in-kind contributions can be reliably determined, the Project includes such value in the statement of receipts and payments both as receipts and as payments in equal and opposite amounts; otherwise, the contribution is not recorded.

d) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year.

For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

e) Restriction on cash

Restricted cash represents amounts that are limited/restricted from being used to settle a liability for at least twelve months after the reporting period. This cash is limited for direct use as required by stipulation. Amounts maintained in deposit bank accounts are restricted for use in refunding third part deposits.

f) Imprests and Advances

For the purposes of these financial statements, imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year is treated as receivables. This is in recognition of the government practice where the imprest payments are recognized as payments when fully accounted for by the imprest or AIE holders. This is an enhancement to the cash accounting policy. Other accounts receivables are disclosed in the financial statements.

g) Pending bills

Pending bills consist of unpaid liabilities at the end of the financial year arising from contracted goods or services during the year or in past years. As pending bills do not involve the payment of cash in the reporting period, they recorded as 'memorandum' or 'off-balance' When the pending bills are finally settled, such payments are included in the statement of receipts and payments in the year in which the payments are made.

h) Budget

The budget is developed on a comparable accounting basis (cash basis), the same accounts classification basis (except for accounts receivable - outstanding imprest and clearance accounts and accounts payable - deposits, which are accounted for on an accrual basis), and for the same period as the financial statements. The Project's budget was approved as required by Law and National Treasury Regulations, as well as by the participating development partners, as detailed in the Government of Kenya Budget Printed Estimates for the year. The Development Projects are budgeted for under the MDAs but receive budgeted funds as transfers and account for them separately. These transfers are recognised as inter-entity transfers and are eliminated upon consolidation. A high-level assessment of the Project's actual performance against the comparable budget for the financial year/period under review has been included in an annex to these financial statements.

i) Comparative figures

Where necessary comparative figures for the previous financial year/period have been amended or reconfigured to conform to the required changes in financial statement presentation.

j) Subsequent events

There have been no events subsequent to the financial year/period end with a significant impact on the financial statements for the year ended June 30, 2022.

k) Prior period adjustments

Prior period adjustments relate to errors and other adjustments noted arising from previous year(s). Explanations and details of these prior period adjustments are presented in note xx of these financial statements

Notes To the Financial Statements

1. Transfers From Government entities

These represent counterpart funding and other receipts from government as follows:

Description	KShs	KShs	Cumulative to- date (from inception)
	2021-2022	2020-2021	
Other transfers from government entities	4		
National Treasury – State Department for Planning	30,000	-	30,000
Total	30,000	=	30,000

[This amount was meant for UNFPA Project in KNBS and was credited to the NIPFN Project Account. The amount is due to KNBS.]

2. Proceeds From Domestic and Foreign Grants

During the 12 months to 30 June 2022, we received grants from donors as detailed in the table below:

Name of Donor	Date received	Amount received in donor currency	Grants received in cash	Grants receive d as direct payme nt*	Grants receiv ed in kind	Total amount	in Kshs
			Kshs	Kshs	Kshs	2021-2022 Kshs	2020-2021 Kshs

Timeframe: (Put a date when you expect the issue to be resolved)	
Status; (Resolved / Not Resolved)	
Status: (Resoft)	evaluation of the tender outside the office was necessitated by the number of respondents to the advertised tender on the computers and laptops. The number of bidders were 47 and the tender documents were bulky due to the technical specification required. The timelines dictated by the PPAD Act 2015 is 30 calendars days for the evaluation to be concluded from the day of opening of the bids. Technical evaluation of the desktop and laptop were conducted separately and this took a lot of time. It must also be noted that the need to evaluate the tender out of office was also to avoid constant interruption of the evaluation committee members by having them work as a team in order to ensure the evaluation is done in a timely manner. Also, by having the members in one area,
Reference No. on the sternal Auditor audit Report	Domestic Travel and subsistence The statement of receipts and payments for the year ended 30 June, 2021 reflects a balance of Kshs. 4,505,301 on Purchase of Goods and Services as further disclosed in Note 9.5 which includes an amount of Kshs. 1,268,336 on Domestic travel and subsistence out of which Kshs. 438,800 was spent on adjudication of Tender worth Kshs. 3,259,600. The payment was made to Staff who travelled to Naivasha in the month of August 2020 and conference facilities for the tender processing of 8 (eight) Computers and 6 (six) laptops. However, the adjudication would have been done efficiently and economically at the Projects Offices hence saving project funds.
