1. Project Information and Overall Performance

1.1 Name and registered office

Name

The project's official name is Kenya GOLD Mercury Free ASGM Project.

Objective

The key objective of the project is to reduce/eliminate the use of mercury in the Kenya's ASGM mining sector through provision of technical assistance, technology transfer, establishment of public private partnerships and facilitating access to financing for the purchase of mercury-free processing equipment.

The project intends to introduce and promote best practices and techniques for gold extraction. That means more money for miners and their families and fewer risks to their health, their communities, and the environment.

Address

The project headquarters offices are at Nairobi City, Nairobi County, Kenya.

The address of its registered office is:

NHIF Building, Ragati Road, Upperhill

NAIROBI, KENYA

The project has no other offices/branches

Contacts: The following are the project contacts

P.O. Box: 30126-00100, Nairobi

Telephone: 254-020 – 2730808/9

E-mail: psoffice@environment.go.ke, imkagoldproject@gmail.com

Website: www.environment.go.ke

Project information and overall performance (continued)

1.2 Project Information

Project Start Date:	The project start date is 05/07/2019
Project End Date:	The project end date is 05/07/2024
Project Manager:	The project manager is Ms Mayiani Saino
Project Sponsor:	The project sponsor is GEF through UNDP

1.3 Project Overview

Line Ministry/State Department of the project	The project is under the supervision of the Ministry of Environment and Forestry.
Project number	GEF/UNDP/GOK-00108253
Strategic goals of the project	<p>The strategic goals of the project are as follows:</p> <ul style="list-style-type: none"> I. To strengthen institutions and the policy/ regulatory framework for mercury-free ASGM; II. To establish financing lending arrangements that provide loans for mercury free processing equipment; III. To increase capacity for mercury-free ASGM through provision of technical assistance, technology transfer and support for formalization; and, IV. Monitor and evaluate, awareness raising, capturing and disseminating experiences, lessons-learned and best practices.
Achievement of strategic goals	<p>The project management aims to achieve the goals through the following means:</p> <ul style="list-style-type: none"> I. Strengthening institutions and the policy/ regulatory framework for mercury-free ASGM II. Establishing financing lending arrangements to provide loans for mercury free processing equipment

Kenya GOLD Mercury Free ASGM Project
Annual Report and Financial Statements for the financial year ended June 30, 2022

	<p>III. Increasing capacity for mercury-free ASGM through provision of technical assistance, technology transfer and support for formalization; and</p> <p>IV. Monitoring and Evaluation, awareness raising, capturing and disseminating experiences, lessons-learned and best practices</p>
Other important background information of the project	The project will support seven sites in Kenya to reduce mercury use in gold processing by 0.5 metric tonnes per year (mercury reduction will likely start in year three (3) of the project) resulting in a total of 1.5 tonnes of mercury avoided over the duration of the five (5) year project
Current situation that the project was formed to intervene	<p>The project was formed to intervene in the following areas:</p> <p>(i) To build/enhance the capacity of government entities in order to improve their capacity to assess, plan, and implement sustainable and mercury-free interventions in the ASGM sector;</p> <p>(ii) Development of new/improved financial products/mechanisms (including women friendly financial products) established for the ASGM sector;</p> <p>(iii) Total mercury use/releases from ASGM avoided by 1.5 tonnes; and,</p> <p>(iv) Awareness raised of 54,600 people (16,380 female and 38,220 male) on the dangers of mercury and ways to reduce its use in ASGM</p>
Project duration	The project started on 1st July 2019 and is expected to run until 30 June 2024

Project Information and Overall Performance (Continued)

1.4 Bankers

The following is the banker for the current year:

Central Bank of Kenya
Haile Selassie Avenue
P.O. Box 60000
City Square 00200
NAIROBI, KENYA

1.5 Independent Auditors

The project is audited by:

Auditor General
Office of Auditor General
Anniversary Towers, University Way
P.O. Box 30084
GPO 00100,
NAIROBI, KENYA.

1.6 Roles and Responsibilities

The officers who are working on the project are as below:

Names	Title designation	Key qualification	Responsibilities
Dr. Chris Kiptoo, CBS	Principal Secretary	PhD International Macro Economics	Project Executive, Chair project board and approves all the project expenditures
Ms. Agnes Yobterick, OGW	Director of Projects Programmes & Strategic Initiatives	MSc in Forestry & leadership skills in project and programs	Oversight and supervise the project implementation.
Mayiani Saino	Project Manger	MSc. Environmental Engineering.	Oversee the day-to-day project implementation
Convine Omondi	Regional Project Officer	MSc Geology	Project Officer in charge of Kakamega & Vihiga Region
Henry Nyamai	Regional Project Officer	MSc Geology	Project Officer in charge of Migori & Narok Region
Kiprono Patrick	Finance Officer	C.P.A, Bachelors of Commerce in Finance	Project Financial Reporting and Administration

Sharon Chelangat	Project Assistant	Bachelors degree in Environmental Planning and Management	Coordination & administration of project Activities
Ruth Epwoka	Communication Officer	M.A Communication & Media	Provide lead role in knowledge management & Communication aspect of the project

1.7 Funding summary

The Project is for duration of 5 years from 2019 to 2024 with an approved budget of **US\$ 4,200,000** (use donor currency) equivalent to **KShs 462,000,000** as highlighted in the table below:

Project information and overall performance (continued)

Below is the funding summary:

A. Source of Funds

Source of funds	Donor Commitment-		Amount received to date -- 30 June 2022		Undrawn balance to date	
	Donor currency	Kshs	Donor currency USD	Kshs	Donor currency USD	Kshs
	(A)	(A')	(B)	(B')	(A)-(B)	(A)-(B)
(i) Grant						
UNDP (1USD=KES 110)			632,753	69,602,800.00		
(ii) Direct Payments						
Direct Payments by UNDP	4,200,000	462,000,000	459,435	50,537,821	3,107,812	341,859,320
Total	4,200,000	462,000,000	1,092,188	120,140,621	3,107,812	341,859,320

B. Application of Funds

Application of funds	Amount received to date – (30 th June 2022)		Cumulative amount paid to date – (30 th June 2022)	Unutilised balance to date (30th June 2022)	
	Donor currency	Kshs	Kshs	Donor currency	Kshs
	(A)	(A')	(B')	(A)-(B)	(A')-(B')
(i) Grant					
UNDP (1USD=KES 110)	632,752.73	69,602,800.00	67,669,255.60	17,577.68	1,933,544.40
(ii) Direct Payments					
Direct Payments by UNDP	459,435	50,537,821.00	50,537,821.00	0	0
Total	1,092,187.73	120,140,621	118,207,076.6	17,577.68	1,933,544.40

Project information and overall performance (continued)

1.8 Summary of Overall Project Performance:

Kenya GOLD Mercury Free ASGM Project is a five-year project with a grant of USD 4,200,000.00. The project is part of a global initiative funded by the Global Environment Facility (GEF), led by the United Nations Environment Programme, and implemented in collaboration with the United Nations Development Programme, United Nations Industrial Development Organization and Conservation International. The programme works in partnership with governments, the private sector and artisanal and small-scale gold mining (ASGM) communities in eight countries to significantly improve the production practices and work environment of artisanal and small-scale miners.

The project during the period received a total of KES 69,602,800.00 under the direct cash transfer modality and utilized KES 67,669,255.60 (equivalent to 97% absorption) to implement the project activities including consultative meetings, training of miners and minor associations on record keeping, review and validation of various guidelines and regulations, site assessment and sharing of experience and lessons learned with various stakeholders. In addition, UNDP incurred a total of KES 50,537,821 for the purposes of attaining project goals through the direct payment modality. The project was able to attain the following goals:

- Developed work plan, budgets and procurement plan;
- Harmonized the reports with the mineral rights boards;
- Conducted training for miners and miner associations;
- Carried out various consultancy baseline reports, reviewed and validated the findings;
- Developed a stakeholder engagement plan and conducted a stakeholder consultation, site assessment and engagements in all the seven project areas;
- Carried out the accumulation of data to determine the mercury to gold ratios in project sites;
- Supported the finalization of the National Action Plan on ASGM.

Some of the risk management strategies employed by the project includes the following:

- Entrusting project partners to run some of the project activities;
- Constant review of the project progress reports against the set targets; and,

- The internal controls put in place by the ministry to ensure transactions conforms to the ministry Standard Operating Procedures.

Implementation challenges and recommended way forward.

- The project has been operating without 3 critical project staff. (Gender expert, Chief Technical Advisor and Governance Policy Expert). The ministry has been in the process of recruiting the personnel and there is need to fast track the process;
- The differences in the donor and government financial years makes synchronization of operations a little difficult. Delays in processing advances in grant revenue affects project absorptions. To overcome this the ministry will continuously engage the donor and national treasury to ensure efficiency in funds disbursement and exchequer processing; and,
- The frequent closure of IFMIS system affects project procurements delaying the delivery of the project targets. To address this, the project would request that system closure should consider donor timelines and targets to support the project achieve its objectives in the given timelines.

1.9 Summary of Project Compliance:

The implementation of the project has been smooth and no cases of noncompliance with applicable laws and regulations and essential external financing agreements/covenants reported during the period under review.

2. Statement of Performance against Project's Predetermined Objectives

The Kenya project, being a part of the Global Opportunities for Long-term Development of the ASGM sector – GEF GOLD programme, will also be able to benefit from the efforts of the UNEP-implemented GEF GOLD global child project that will unify and coordinate efforts among all the GEF GOLD child projects, focusing on the capturing of experiences and lessons-learned and subsequently disseminating knowledge generated to a wider ASGM audience to help Parties to the Minamata Convention meet their obligations to reduce and where feasible eliminate mercury use in ASGM. The project is based on the components/outcome outlined below and the degree to which such outcome has been achieved:

- Component 1/outcome 1: strengthening institutions and the policy/ regulatory framework for mercury-free ASGM.

So far, all the four (4) Artisanal County committees in Kakamega, Migori, Narok and Vihiga have been gazette by the Ministry of Mining and Petroleum and the project supported the induction of the committees.

The project has developed various two draft guidelines and one regulation awaiting public participation. The draft documents are as below;

1. Draft guidelines for designation areas for ASM and the draft consents forms for various land tenures;
2. Draft mine health, safety and Environment for Artisanal Mining operations; and,
3. Draft TOR for Mine, health and environment regulations.

The project also finalized on various consultancies on baseline surveys and final reports are being actioned in the current quarter.

Estimated process: 70%

- Component 2/outcome 2: Establishing financing lending arrangements to provide loans for mercury free processing equipment.

Against the mid-term goal, no financial product has been developed. The project identified and shortlisted the financial institutions and micro finance institutions that are able to develop financial product for ASGM.

Estimated process is: 40%

- Component 3/outcome 3: Increasing capacity for mercury-free ASGM through provision of technical assistance, technology transfer and support for formalization;

The project is yet to introduce mercury free technology and mercury reduction to small scale miners and is in the process of carrying out an assessment to determine the mercury releases from ASGM.

There has been no record of gold produced without mercury.

Estimated process is: 15%

- Component 4/outcome 4: Monitoring and Evaluation, awareness raising, capturing and disseminating experiences, lessons-learned and best practices.

The project has raised awareness and has engaged a cumulative total number of 2,785 persons (1,169 women and 1,616 men) in all project sites.

The project has documented common practices in the sector that need to be improved.

Estimated process is: 30%

Below we provide the progress on attaining the stated objectives:

Project	Objective	Outcome	Indicator	Performance
Strengthening institutions and the policy/ regulatory framework for Mercury-free ASGM	To increase the capacity National and local systems to assess, plan, and implement sustainable and mercury-free interventions in the ASGM sector.	Capacity of 4 government entities increased to improve their capacity to assess, plan, and implement sustainable and mercury-free interventions in the ASGM sector	% Level of the capacity increased on the government entities to assess, plan and implement sustainable and mercury free interventions in the ASGM sector	<ul style="list-style-type: none"> So far, all the four (4) Artisanal County committees in Kakamega, Migori, Narok and Vihiga have been gazette by the Ministry of Mining and Petroleum and the project supported the induction of the committees The project also finalized on various consultancies on baseline surveys and final reports are being actioned in the current quarter. 3. Environmental and Sustainability reporting

The Ministry of Environment and Forestry mission is to promote and facilitate good governance in the protection, restoration, conservation, development and management of environment and forestry resources for equitable and sustainable development.

I. Sustainability strategy and profile

The project aims to increase the capacity of government and private sector and improve regulatory frameworks so as to enable formalization of the ASGM sector and the development of responsible mining. This will improve access to, and adequacy of financial and technical services for the ASGM sector for the uptake of chemical-free ore processing, and to pilot and train miners in the use of best practice technologies that eliminate mercury.

II. Environmental performance

The right to a clean and healthy environment is enshrined in Article 42 of the Constitution of Kenya, and Article 70 on the Enforcement of Environmental Rights. The sound management of mercury to prevent acts or emissions that affect the health and wellbeing, not only of people but of the environment, is therefore an obligation of the State. Kenya lacks a dedicated law on mercury, which makes it difficult to control the handling and movement of the chemical. Nevertheless, it is a signatory to the Minamata Convention on Mercury since 10th October 2013 and is working towards its ratification. In addition to the Minamata Convention, Kenya is a signatory to the Basel Convention on the Transboundary Movement of Hazardous Waste Disposal, which it ratified on 1st June, 2000, and the Rotterdam Convention which it ratified on 3rd February, 2005, as a demonstration of its commitment to address threats posed by pollutants such as mercury.

III. Employee welfare

The Ministry continuously ensures that the hiring process is guided by the employment Act of Kenya which takes into account the gender ratio and stakeholder engagement. The amendments of the employment Act of 2007 by the employment (amendment) Act 2021 which come into force on 15th April, 2021 takes into consideration changes in the employment sector including provision on pre-adoptive leave. Training programs are also arranged by the Ministry through the

project to build and enhance capacity for the staff while the Ministry also ensures compliance with Occupational Safety and Health Act of 2007, (OSHA)

IV. Market place practices-

a) Responsible competition practice.

The Ministry through the project ensures responsible political involvement, fair competition, respect for competitors and responsible competition practices when engaging third parties to provide services and/or goods while also ensuring that the staff do not engage in corrupt and an ethical behaviour.

b) Responsible Supply chain and supplier relations-

The Public Procurement and Disposals Act of 2015 guides the project in the engagement of suppliers of goods and services which ensures that the terms of engagement are adhered to.

c) Responsible marketing and advertisement-

The Ministry through the project is committed to maintain high ethical marketing practices in the implementation of the project activities.

d) Product stewardship-

Integrated Sound Management of Mercury in Kenya's ASGM Project is geared towards improving the production practices and work environment of artisanal and small-scale gold mines which is aimed at demonstrating a pathway to cleaner and more efficient small-scale gold mining practices that benefit everyone, from mine to market.

V. Community Engagements

The project works with a multitude of partners and communities to achieve the project's objective. The project developed a summary/overview of all the project's stakeholders and partner initiatives, what these stakeholders/initiatives are currently doing to address the project objectives, what the role of the partner/initiative will be in the project's implementation, as well as the assumptions and expected results that will be achieved by the project's partners that are critical for the achievement of the results of this project.

4. Statement of Project Management responsibilities

The *Principal Secretary* for the Ministry of Environment and Forestry and the *Project Manager* for ***Kenya GOLD Mercury Free ASGM project*** are responsible for the preparation and presentation of the Project's financial statements, which give a true and fair view of the state of affairs of the Project for and as at the end of the financial year (period) ended on June 30, 2022.

This responsibility includes (i) Maintaining adequate financial management arrangement and ensuring that these continue to be effective throughout the reporting period, (ii) Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the project, (iii) Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statement, and ensuring that they are free from material misstatements, whether due to error or fraud, (iv) safeguarding the assets of the project, (v) Selecting and applying appropriate accounting policies and (v) Making accounting estimates that are reasonable in the circumstances.

The *Principal Secretary* for the Ministry of Environment and Forestry and the *Project Manager* for ***Kenya GOLD Mercury Free ASGM project*** accept responsibility for the Project's financial statements, which have been prepared on the Cash Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards.

The *Principal Secretary* for the Ministry of Environment and Forestry and the *Project Manager* for ***Kenya GOLD Mercury Free ASGM project*** are of the opinion that the Project's financial statements give a true and fair view of the state of Project's transactions during the financial year/period ended June 30, 2022, and of the Project's financial position as at that date. The *Principal Secretary* for Ministry of Environment and Forestry and the *Project Manager* for ***Kenya GOLD Mercury Free ASGM project*** further confirm the completeness of the accounting records maintained for the Project, which have been relied upon in the preparation of the Project financial statements as well as the adequacy of the systems of internal financial control.

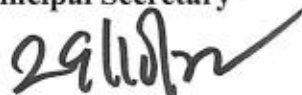

The *Principal Secretary* for the Ministry of Environment and Forestry and the *Project Manager* for **Kenya GOLD Mercury Free ASGM project** confirm that the Project has complied fully with applicable Government Regulations and the terms of external financing covenants, and that Project funds received during the financial year/period under audit were used for the eligible purposes for which they were intended and were properly accounted for.

Approval of the Project Financial Statements

The Project financial statements were approved by the *Principal Secretary* for the Ministry of Environment and Forestry and the *Project Manager* for **Kenya GOLD Mercury Free ASGM project** on 28TH OCT. 2022 and signed by them.

REPORT OF THE AUDITOR-GENERAL ON KENYA GOLD MERCURY FREE ASGM PROJECT CREDIT NO. GEF/UNDP/GOK - 00108253 FOR THE YEAR ENDED 30 JUNE, 2022 - MINISTRY OF ENVIRONMENT AND FORESTRY

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure Government achieves value for money and that such funds are applied for intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, the risk management environment, and the internal controls developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations, and that its internal controls, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report, when read together constitute the report of the Auditor-General.

REPORT ON THE FINANCIAL STATEMENTS

Opinion

I have audited the accompanying financial statements of Kenya Gold Mercury Free ASGM Project set out on pages 1 to 34, which comprise of the statement of financial assets as at 30 June, 2022, and the statement of receipts and payments, statement of

Report of the Auditor-General on Kenya Gold Mercury Free ASGM Project Credit No. GEF/UNDP/GOK - 00108253 for the year ended 30 June, 2022 - Ministry of Environment and Forestry

cash flows and the statement of comparison of budget and actual amounts for the year then ended 30 June, 2022, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Kenya Gold Mercury Free ASGM Project as at 30 June, 2022, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Cash Basis) and comply with the Financing Agreement between United Nations Development Programme (UNDP) and the Government of the Republic of Kenya dated 5 July, 2019 and the Public Finance Management Act, 2012

In addition, the special accounts statement presents fairly the special accounts transaction, and the closing balance has been reconciled with the books of account.

Basis for Opinion

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the Kenya Gold Mercury Free ASGM Project Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

Other Matter

1. Budgetary Control and Performance

The statement of comparison of budget and actual amounts reflects final receipts budget and actual on comparable basis of Kshs.150,000,000 and Kshs.90,121,621 respectively resulting to under-funding of Kshs.59,878,379 or 40% of the budget. Similarly, the Project spent Kshs.96,222,505 out of the budgeted amount of Kshs.150,000,000 resulting to an under-expenditure of Kshs.53,777,495 or 36% of the budget.

The under-funding and under-performance affected the planned activities of the Project and may have impacted negatively on service delivery to the public.

2. Pending Bills

As disclosed in Note 12.1 under other important disclosures, the Project had pending accounts payables totalling to Kshs.692,606 as at 30 June, 2022. This amount remained outstanding as at the time of audit in the month of October, 2022. Management has not explained why the bills were not settled during the year when they occurred. The Project is at risk of incurring significant interest costs and penalties with their continued delay in payment.

Failure to settle bills during the year in which they relate, distorts the financial statements and adversely affects the budgetary provisions for the subsequent year as they form a first charge.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, except for the matter described in the Basis for Conclusion on Lawfulness and Effectiveness in Use of Public Resources section of my report, I confirm that, nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

Unfulfilled Project Objectives

According to the statement of performance against Project's predetermined objectives as reflected in the financial statement, the objectives of the Project may not be attained fully for a duration of five (5) as analyzed below: -

- i. Objective 2. Establishing financing lending arrangements to provide loans for mercury free processing equipment is at 40%.
- ii. Objective 3. Increasing capacity for mercury-free ASGM through provision of technical assistance, technology transfer and support for formalization is at 15%.
- iii. Objective 4. Monitoring and Evaluation, awareness raising, capturing and disseminating experiences, lessons-learned and best practices is at 30%.

The project objectives ought to be at least at 50% while three (3) years have already lapsed since inception and two (2) years remaining to achieve 100% project objectives.

In the circumstances, the full realization of the planned Project's predetermined objectives could not be confirmed.

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the review so as to obtain limited assurance as to whether the activities, financial transactions and information reflected in

the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and governance were not effective.

Basis of Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit so as to obtain limited assurance as to whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

The Project Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Cash Basis) and for maintaining effective internal controls as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and overall governance.

In preparing the financial statements, the Project Management is responsible for assessing the Project's ability to continue to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Project or to cease operations.

The Project Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the Projects activities, financial transactions and information reflected in the financial statements are compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Project's financial process, reviewing the effectiveness of how the Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance

and risk management, are in place, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance review is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way in accordance with the provisions of Article 229(6) of the Constitution.

Further, in planning and performing the audit of the financial statements and review of compliance, I consider internal controls in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal controls would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal controls may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the Project's policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from

fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Project to cease to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Project to express an opinion on the financial statements
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

CPA Nancy Gathungu, CBS
AUDITOR-GENERAL

Nairobi

10. Significant Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

10.1 Statement of compliance and basis of preparation

The financial statements have been prepared in accordance with Cash-basis IPSAS financial reporting under the cash basis of accounting, as prescribed by the PSASB and set out in the accounting policy note below. This cash basis of accounting has been supplemented with accounting for; a) receivables that include imprests and salary advances and b) payables that include deposits and retentions. The financial statements comply with and conform to the form of presentation prescribed by the PSASB.

The accounting policies adopted have been consistently applied to all the years presented.

10.2 Reporting entity

The financial statements are for the Kenya GOLD Mercury Free ASGM project under the Ministry of Environment and Forestry. The financial statements are for the reporting entity Kenya GOLD Mercury Free ASGM project as required by Section 81 of the PFM Act, 2012 .

10.3 Reporting currency

The financial statements are presented in Kenya Shillings (Kshs), which is the functional and reporting currency of the Project and all values are rounded to the nearest Kenya Shilling.

10.4 Recognition of receipts

Kenya GOLD Mercury Free ASGM project recognises all receipts from the various sources when the event occurs, and the related cash has actually been received.

i) Transfers from the Exchequer

Transfer from Exchequer is recognized in the books of accounts when cash is received. Cash is considered as received when payment instruction is issued to the bank and notified to the receiving entity.

ii) External Assistance

External assistance is monies received through grants and as direct payments from multilateral and bilateral development partners.

Significant Accounting Policies (Continued)

iii) Other receipts

These include Appropriation-in-Aid and relates to receipts such as proceeds from disposal of assets and sale of tender documents. These are recognized in the financial statements at the time associated cash is received.

iv) Donations and grants

Grants and donations shall be recognized in the books of accounts when cash is received. Cash is considered as received when a payment advice is received by the recipient entity or by the beneficiary. In case of grant/donation in kind, such grants are recorded upon receipt of the grant item and upon determination of the value. The date of the transaction is the value date indicated on the payment advice.

v) Proceeds from borrowing

Borrowing includes external loans acquired by the Project or any other debt the Project may take and will be treated on cash basis and recognized as a receipt during the year they were received.

vi) Undrawn external assistance

These are loans and grants at reporting date as specified in a binding agreement and relate to funding for the Project currently under development where conditions have been satisfied or their ongoing satisfaction is highly likely and the project is anticipated to continue to completion. An analysis of the Project's undrawn external assistance is shown in the funding summary.

10.5 Recognition of payments

The Project recognises all payments when the event occurs, and the related cash has actually been paid out by the Project.

i) Compensation to employees

Salaries and Wages, Allowances, Statutory Contribution for employees are recognized in the period when the compensation is paid.

Significant Accounting Policies (Continued)

ii) Use of goods and services

Goods and services are recognized as payments in the period when the goods/services are consumed and paid for. If not paid for during the period where goods/services are consumed, they shall be disclosed as pending bills.

iii) Interest on borrowing

Borrowing costs that include interest are recognized as payment in the period in which they incur and paid for.

iv) Repayment of borrowing (principal amount)

The repayment of principal amount of borrowing is recognized as payment in the period in which the repayment is made. The stock of debt is disclosed as an annexure to the consolidated financial statements.

v) Acquisition of fixed assets

The payment on acquisition of property plant and equipment items is not capitalized. The cost of acquisition and proceeds from disposal of these items are treated as payments and receipts items respectively. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration and the fair value of the asset can be reliably established, a contra transaction is recorded as receipt and as a payment.

A fixed asset register is maintained by each public entity and a summary provided for purposes of consolidation. This summary is disclosed as an annexure to the consolidated financial statements.

10.6 In-kind donations

In-kind contributions are donations that are made to the Project in the form of actual goods and/or services rather than in money or cash terms. These donations may include vehicles, equipment or personnel services. Where the financial value received for in-kind contributions can be reliably determined, the Project includes such value in the statement of receipts and payments both as receipts and as payments in equal and opposite amounts; otherwise, the contribution is not recorded.

Significant Accounting Policies (Continued)

10.7 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year.

For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

10.8 Restriction on cash

Restricted cash represents amounts that are limited/restricted from being used to settle a liability for at least twelve months after the reporting period. This cash is limited for direct use as required by stipulation. Amounts maintained in deposit bank accounts are restricted for use in refunding third part deposits.

10.9 Imprests and Advances

For the purposes of these financial statements, imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year is treated as receivables. This is in recognition of the government practice where the imprest payments are recognized as payments when fully accounted for by the imprest or AIE holders. This is an enhancement to the cash accounting policy. Other accounts receivables are disclosed in the financial statements.

10.10 Contingent Liabilities

A contingent liability is:

- a) A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) A present obligation that arises from past events but is not recognised because:

Significant Accounting Policies (Continued)

- i) It is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or
- ii) The amount of the obligation cannot be measured with sufficient reliability.

Some of contingent liabilities may arise from: litigation in progress, guarantees, indemnities. Letters of comfort/ support, insurance, Public Private Partnerships,

The Entity does not recognize a contingent liability but discloses details of any contingencies in the notes to the financial statements unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

10.11 Contingent Assets

Kenya GOLD Mercury Free ASGM project does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of *(the Entity)* in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

10.12 Pending bills

Pending bills consist of unpaid liabilities at the end of the financial year arising from contracted goods or services during the year or in past years. As pending bills do not involve the payment of cash in the reporting period, they recorded as 'memorandum' or 'off-balance' When the pending bills are finally settled, such payments are included in the statement of receipts and payments in the year in which the payments are made.

Significant Accounting Policies (Continued)

10.13 Budget

The budget is developed on a comparable accounting basis (cash basis), the same accounts classification basis (except for accounts receivable - outstanding imprest and clearance accounts and accounts payable - deposits, which are accounted for on an accrual basis), and for the same period as the financial statements. The Project's budget was approved as required by Law and National Treasury Regulations, as well as by the participating development partners, as detailed in the Government of Kenya Budget Printed Estimates for the year. The Development Projects are budgeted for under the MDAs but receive budgeted funds as transfers and account for them separately. These transfers are recognised as inter-entity transfers and are eliminated upon consolidation. A high-level assessment of the Project's actual performance against the comparable budget for the financial year/period under review has been *included in an annex to these financial statements*.

10.14 Third party payments

Included in the receipts and payments, are payments made on its behalf by to third parties in form of loans and grants. These payments do not constitute cash receipts and payments. and are disclosed in the payment to third parties' column in the statement of receipts and payments. During the year, there were no amount of money being loan disbursements received in form of direct payments from third parties.

10.15 Exchange rate differences

The accounting records are maintained in the functional currency of the primary economic environment in which the Project operates, Kenya Shillings. Transactions in foreign currencies during the year/period are converted into the functional currency using the exchange rates prevailing at the dates of the transactions. Any foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statements of receipts and payments.

Significant Accounting Policies (Continued)

10.16 Comparative figures

Where necessary comparative figures for the previous financial year/period have been amended or reconfigured to conform to the required changes in financial statement presentation.

10.17 Subsequent events

There have been no events subsequent to the financial year/period end with a significant impact on the financial statements for the year ended June 30, 2022.

10.18 Prior period adjustments

Prior period adjustments relate to errors and other adjustments noted arising from previous year(s). During the financial year, there were no prior year adjustments

Notes

* Purchases/Additions in the year reconciled to the amount in Statement of Receipts and Payments

** The disposal amount to be disclosed in this register is the cost that the asset was acquired at and not the price at which it has been sold. The balance as at the end of the year is the cumulative cost of all assets bought and inherited by the Ministry, Department or Agency. Additions during the year should tie to note 18 on acquisition of assets during the year. Ensure this section is complete covering all the entities assets. Ensure the complete fixed asset register is separately prepared as per circular number 5/2020 and follow up reminder of circular No. 23/2020 of The National Treasury
