CHAIRPERSON'S FOREWORD

It is my honour and privilege to present to the House the Consolidated Fourth Quarter Progress Report of the Liaison Committee of the National Assembly, covering the period April to June 2026, being the Fourth Quarter of the Fifth Session of the Thirteenth Parliament. The Report consolidates the activities, achievements, challenges and recommendations of all thirty-nine (39) Committees of the National Assembly, comprising twenty (20) Departmental Committees and nineteen (19) Select Committees.

The breadth of Committee activity during this quarter reflects the industry and commitment of the Members of this House. Collectively, Committees held seven hundred and seventy-five (775) sittings and tabled sixty-eight (68) reports in the House. Committees considered Bills, statutory instruments, legislative proposals, statements, petitions, treaties and budgetary instruments, giving full expression to the legislative, oversight and representational mandate of this House.

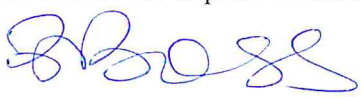

The defining feature of the quarter was the scrutiny of the Estimates of Revenue and Expenditure for the Financial Year 2026/2027 and the Supplementary Estimates No. II for the Financial Year 2025/2026, with all twenty (20) Departmental Committees submitting their reports to the Budget and Appropriations Committee within the required timelines. The Budget and Appropriations Committee conducted public participation on the Estimates across sixteen (16) counties, while the Departmental Committee on Finance and National Planning undertook stakeholder engagement on the Finance Bill, 2026 and related legislation in twelve (12) counties.

The quarter also produced significant legislative and oversight outcomes. The Departmental Committee on Environment, Forestry and Mining concluded the Forest Conservation and Management (Amendment) Bill, which was passed by the House and assented to by the President. The Departmental Committee on Health concluded its inquiry into the alleged malpractice in kidney transplant services at the Mediheal Group of Hospitals, having received evidence from twenty (20) witnesses, and its findings have informed the drafting of a Blood, Cell and Organ Transplant Bill. The Committee on Delegated Legislation scrutinized sixty (60) statutory instruments, while the Public Petitions Committee concluded and tabled eleven (11) petitions.

Notwithstanding these achievements, this Report documents persistent cross-cutting challenges that continue to constrain Committee effectiveness. Sixteen (16) Committees cited delayed and inadequate responses from Ministries, Departments and Agencies, fourteen (14) reported budgetary constraints limiting field visits and public participation, thirteen (13) cited a chronic shortage of committee meeting rooms, and eleven (11) reported quorum challenges. A growing backlog of stalled mediation proceedings, inherited audit backlogs in the watchdog Committees, and shortages of basic stationery and equipment further undermined Committee productivity during the period.

The recommendations set out in Part Six of this Report are directed at the House leadership, the Parliamentary Service Commission and the National Executive, and are intended to address these challenges at a systemic level. I urge that they receive the attention they deserve.

I take this opportunity to thank all Committee Chairpersons, Members and the secretariat staff of the various Directorates for their dedication and commitment in preparing this Consolidated Report within the stipulated timelines.

HON. GLADYS J. BOSS, MGH, MP
THE DEPUTY SPEAKER & CHAIRPERSON, LIAISON COMMITTEE

PART ONE

PREFACE

This Report constitutes the Consolidated Quarterly Progress Report of the Liaison Committee of the National Assembly for the period April to June 2026, covering the Fourth Quarter of the Fifth Session of the Thirteenth Parliament. It is compiled pursuant to the mandate of the Liaison Committee under the National Assembly Standing Orders, which require all Committee Chairpersons to report periodically on the work of their respective Committees.

The Report is presented in two parts. Part One consolidates the quarterly progress reports of the twenty (20) Departmental Committees of the National Assembly, compiled by the Directorate of Departmental Committees. Part Two consolidates the quarterly progress reports of the nineteen (19) Select Committees, compiled by the Directorate of Audit, Appropriations and General-Purpose Committees. Together, the two parts provide a comprehensive picture of the parliamentary Committee activities undertaken during the reporting period.

During the quarter under review, the Committees of the National Assembly were actively engaged in the scrutiny of legislation, oversight of the national budget, examination of the Estimates of Revenue and Expenditure for the Financial Year 2026/2027 and the Supplementary Estimates No. II for the Financial Year 2025/2026, consideration of petitions, processing of statements, examination of the audited accounts and financial statements of public entities, and engagement with a wide range of stakeholders drawn from Government Ministries, Departments and Agencies, civil society and the public.

The Report documents significant legislative achievements, including the tabling of Committee reports, extensive public participation exercises conducted across the country, high-level stakeholder engagements, and field visits undertaken to verify the implementation of Government programmes and projects.

Recurring challenges identified across Committees include delayed and inadequate responses from Ministries, Departments and Agencies, budgetary constraints limiting oversight activities, inadequate committee meeting rooms, quorum challenges, stalled mediation proceedings, and shortages of basic stationery and equipment. The Liaison Committee trusts that the recommendations contained in this Report will receive the necessary attention from the relevant authorities to enhance the effectiveness and efficiency of parliamentary oversight.

The Liaison Committee wishes to express its appreciation to all Committee Chairpersons, Members, and the secretariat staff of the various Directorates for their dedication and commitment in preparing this Consolidated Report within the stipulated timelines.

    (ii) The Plant Protection Bill (National Assembly Bill No. 28 of 2025), whose report was tabled in the House on 16th June 2026 following a clause-by-clause legislative retreat, positioning the country to replace the outdated Plant Protection Act of 1937;

Challenges Faced by the Committee

(i) Late attendance of meetings by Members, resulting in delayed commencement and occasional cancellation of sittings;
(ii) Delayed responses from the Ministry of Agriculture and Livestock Development to several Statements, with an inadequate response on the Trans Nzoia fertilizer shortage requiring resubmission;
(iii) Inadequate budgetary allocation to the agriculture sector, constraining oversight objectives; and
(iv) Delayed bicameral coordination affecting the mediation on the Mung Beans Bill.

Recommendations

(i) Members should observe punctuality, with Committee leadership enforcing attendance so that meetings commence on time;
(ii) The Ministry of Agriculture and Livestock Development should respond to Committee Statements and correspondence within set timelines, with the House holding the Ministry accountable for outstanding responses; and
(iii) The National Treasury and the Budget and Appropriations Committee should progressively increase the budgetary allocation to the agriculture sector in line with its contribution to the economy.

PART FIVE

CROSS-CUTTING THEMES AND OBSERVATIONS

CHALLENGES

306. A review of the quarterly reports submitted by all thirty-nine (39) Committees reveals several recurring themes that cut across both the Departmental and the Select Committees. These themes reflect structural and operational challenges that require systemic attention from the House leadership, the Parliamentary Service Commission and the National Executive.

(1) Delayed and Inadequate Responses from Ministries, Departments and Agencies

The most pervasive challenge reported during the quarter was the persistent delay in receiving responses to Statements, audit queries and Committee requests from Ministries, Departments and Agencies. Sixteen (16) of the thirty-nine Committees, namely Defence, Intelligence and Foreign Relations; Energy; Health; Labour; Lands; Tourism and Wildlife; the Public Accounts Committee; the Public Investments Committee on Governance and Education; the Public Investments Committee on Commercial Affairs and Energy; the Decentralized Funds Accounts Committee; the Committee on National Cohesion and Equal Opportunity; the Committee on Parliamentary Broadcasting and Library; the Committee on Implementation; the Committee on Diaspora Affairs and Migrant Workers; the Public Petitions Committee; and the Liaison Committee, reported that responses were either delayed beyond the timelines set under the Standing Orders, inadequate in substance, or not received at all. Committees further reported instances in which accounting officers and stakeholders cancelled scheduled appearances at short notice or requested last-minute rescheduling of meetings, disrupting Committee programmes and undermining the integrity of the oversight process.

(2) Budgetary Constraints and Resource Limitations

Fourteen (14) Committees cited inadequate budgetary allocation as a constraint on their ability to undertake field inspection visits, capacity-building retreats, stakeholder engagement outside Nairobi and other core oversight activities. Committees noted that the quarterly capping of budget disbursement further limited planning flexibility, particularly for activities scheduled later in the quarter. The Committee on Sports and Culture reported that austerity measures specifically prevented planned activities from proceeding, while the Committee on Environment, Forestry and Mining reported that resource constraints delayed planned fact-finding visits to remote mining sites. The Liaison Committee itself observed that Committees were unable to undertake adequate inspection visits and retreats owing to logistical challenges and limited resource allocation.

(3) Quorum Challenges

Quorum deficiencies were reported by eleven (11) Committees, namely Administration and Internal Security; Defence, Intelligence and Foreign Relations; Labour; Lands; Regional Development; Tourism and Wildlife; the Committee on National Cohesion and Equal Opportunity; the Committee on Parliamentary Broadcasting and Library; the Committee

on Diaspora Affairs and Migrant Workers; the Public Petitions Committee; and the Liaison Committee. Members' concurrent membership of multiple Committees was identified as the primary driver, with scheduled sittings conflicting across Committees, particularly on days when the House also sat in the morning. Several Committees reported that sittings were delayed, postponed or cancelled outright for want of quorum.

(4) Stalled Mediation Proceedings and Legislative Backlog

Seven (7) Committees reported Bills committed to Mediation Committees that were yet to hold their first sitting, notably the Mung Beans Bill before the Committee on Agriculture and Livestock, the Employment (Amendment) Bill before the Committee on Labour, the Start-Up Bill and the Cooperatives Bill before the Committee on Trade, Industry and Cooperatives, the Fire and Rescue Services Professionals Bill before the Committee on Regional Development, the National Construction Authority (Amendment) Bill before the Committee on Housing, Urban Planning and Public Works, the Natural Resources (Benefit Sharing) Bill before the Committee on Environment, Forestry and Mining, and the Election Offences (Amendments) (No. 2) Bill before the Committee on Justice and Legal Affairs. In several cases the delay was attributed to the awaited Message from the Senate appointing its Members to the Mediation Committee. This backlog risks delaying the delivery of the legislative agenda of the Fifth Session.

(5) Audit Backlogs in the Watchdog Committees

(i) The Public Accounts Committee, the three Public Investments Committees, the Special Funds Accounts Committee and the Decentralized Funds Accounts Committee collectively continue to carry significant inherited backlogs of Auditor-General reports. The volume of audit reports relative to the sitting time available to the watchdog Committees remains a structural challenge that limits timely scrutiny and the prompt conclusion of audit queries.

(ii) The Liaison Committee draws the attention of the House, the Parliamentary Service Commission and the National Executive to the foregoing cross-cutting concerns and urges that the accompanying recommendations be addressed as a priority in the interest of strengthening parliamentary oversight and the effectiveness of Committees in serving the public.

PART SIX

RECOMMENDATIONS

307. Arising from the performance review of the thirty-nine (39) Committees and the cross-cutting themes set out in Part Five of this Report, the Liaison Committee makes the following recommendations; -

(1) On Responses from Ministries, Departments and Agencies

The relevant Committees should within thirty (30) days of the adoption of this Report, institute a formal mechanism for tracking and enforcing compliance by Ministries, Departments and Agencies with the timelines prescribed under the Standing Orders for responding to Statements, Committee requests and audit queries; and that persistent non-compliance by an accounting officer be reported to the House for appropriate sanction.

(2) On Budgetary Allocation to Committees

The Budget and Appropriations Committee in consultation with Parliamentary Service Commission ensures adequate budgetary allocations to Committees to safeguard effective oversight and representation.

(3) On Audit Backlogs

Chairpersons of Audit committees, pursuant to Standing Order 186 (2), seek permission to sit while the House is in session to expedite clearance of backlogs, with enhanced technical and secretariat support commensurate with the volume of Auditor-General reports, to enable progressive clearance of inherited audits and timely scrutiny of current reports.

(4) On Capacity Building

The Parliamentary Service Commission in consultation with the Centre for Parliamentary Studies and Training, should institute a structured and adequately resourced capacity-building programs for Members on emerging issues within the respective mandates of their Committees.
