REPUBLIC OF KENYA

THIRTEENTH PARLIAMENT – (FIFTH SESSION)

THE NATIONAL ASSEMBLY

ORDERS OF THE DAY

WEDNESDAY, NOVEMBER 04, 2026 AT 9.30 A.M.

ORDER OF BUSINESS

PRAYERS

1. Administration of Oath
2. Communication from the Chair
3. Messages
4. Petitions
5. Papers
6. Notices of Motion
7. Questions and Statements

8*. COMMITTEE OF THE WHOLE HOUSE

The Sexual Offences (Amendment) Bill (National Assembly Bill No. 50 of 2025)
(The Hon. Udgoon Siyad, M.P.)

9*. MOTION: 003/2026 – FORMULATION OF A POLICY ON POWER SUBSIDIES FOR EXPORT-ORIENTED AGRICULTURAL PRODUCTION
(The Hon. Gathoni Wamuchomba, M.P.)

THAT, aware that agriculture remains the backbone of Kenya's economy, contributing substantially to the GDP, rural employment, and foreign exchange earnings, with key export crops such as coffee, tea, avocados, cut flowers, macadamia nuts, cashew nuts, and related horticultural produce collectively accounting for a significant share of the country's total export value; further aware that these commodities are largely produced for the export market, positioning Kenya as a global leader in cut-flower exports, one of Africa's largest producers and exporters of avocados and macadamia nuts, and a major supplier of tea and coffee; noting that the commencement of duty-free access to the Chinese market for these products effective May 2026 presents a historic opportunity to widely expand export earnings, create thousands of rural jobs, promote value addition, and strengthen the country's position in global agricultural trade; concerned that the high cost of electricity in Kenya, as evidenced by commercial and industrial rates significantly exceeding those of regional competitors such as Ethiopia and Tanzania, continues to erode the competitiveness of export-oriented agriculture by inflating the costs of critical operations such as irrigation, cold-chain storage and logistics, processing, drying, grading, packaging, and

……../9*(Cont'd)

other value-addition activities essential for meeting stringent international quality, food safety, and phytosanitary standards; cognisant that affordable and reliable power supply is a critical input for smallholder farmers, farmer cooperatives, aggregators, and agro-processors engaged in these export crops; further cognisant that the lack of targeted electricity subsidies has led to reduced profitability, discouraged investment in modern technologies such as solar-assisted irrigation and energy-efficient cold rooms, and increased vulnerability to global price volatility and climate shocks; acknowledging that whereas, the National Energy Policy 2025–2034 and the Policy Framework for Sustainable Financing and Subsidy Management in Agriculture provide a broad foundation for targeted interventions, no specific mechanisms exist on subsidised electricity tariffs exclusively for export-oriented agricultural production, processing, and related infrastructure; now therefore, this House **resolves** that the Cabinet Secretary for Energy and Petroleum formulates a National Policy on Power Subsidies for Export-Oriented Agricultural Production that provides for tiered electricity tariff subsidies including off-peak and time-of-use rates, exclusively for registered producers, cooperatives, processors and exporters of coffee, tea, avocados, cut flowers, macadamia nuts, cashew nuts and other designated export crops.

10*. MOTION: 006/2026 – NATIONAL SENSITISATION AND SUPPORT FOR COMBATING SICKLE CELL AND HAEMOPHILIA DISEASES
(The Hon. Peter Nabulindo, M.P.)

THAT, aware that Article 43(1) of the Constitution entitles every person to the right to the highest attainable standard of health, which includes the right to health care services; further aware that, every year, an estimated 14,000 children born in Kenya suffer from sickle cell and Haemophilia diseases, with the highest prevalence rate being within Western, Nyanza and Coastal Regions; concerned that, failure to undertake sickle cell and Haemophilia screening at birth hinders timely administration of appropriate treatment and other mitigation measures to forestall high infant mortality caused by preventable diseases like malaria; cognizant that, national population surveys does not include data on sickle cell and Haemophilia diseases; concerned that, the dearth of data and information negatively hinders prioritization of resources and implementation of sickle cell disease management programs; recognizing that, the number infant deaths caused by the disease continues to grow as a result of underfunding due to lack of data on the number of cases of the killer disease; now therefore, this House **resolves** that the National Government, through the Ministry of Health, and in conjunction with county governments–

(i) conducts awareness and sensitization programmes on sickle cell and haemophilia diseases and supports research and training for medical personnel on the two diseases; and
(ii) puts in place measures for mandatory screening of newborns sickle cell and haemophilia diseases in all public health facilities in the country in order to create a database to guide funding and other interventions aimed at curbing the diseases and reducing infant mortalities resulting from the diseases.

11*. MOTION: 007/2026 – INCLUSION OF AFLASAFE K01 IN THE NATIONAL AGRICULTURAL INPUT SUBSIDY PROGRAMME

(The Hon. (Dr.) John Mutunga, M.P.)

THAT, aware that, Article 43(1)(c) of the Constitution of Kenya guarantees every person the right to be free from hunger and to have adequate food of acceptable quality; cognizant of the fact that, aflatoxin contamination, caused by toxic substances produced by certain fungi, remains a significant public health, food safety and economic threat in Kenya, with exposure associated with acute poisoning, chronic liver damage, cellular DNA damage and an increased risk of liver cancer; noting that, surveillance data has demonstrated widespread aflatoxin contamination in Kenya's staple foods, particularly maize and maize products, as well as animal feeds and other food products, with some samples recording aflatoxin levels substantially above the national permissible threshold of 10 parts per billion; acknowledging that biological control technology, particularly Aflasafe KE01, developed locally by the Kenya Agricultural and Livestock Research Organization (KALRO) in collaboration with the International Institute of Tropical Agriculture (IITA), using safe and non-toxic indigenous fungal strains, provides a scientifically validated and field-proven pre-harvest intervention for the prevention and control of aflatoxin contamination; further acknowledging that, field applications of Aflasafe KE01, including large-scale demonstrations at the Galana-Kulalu Irrigation Scheme and in Meru County, have substantially reduced aflatoxin contamination in harvested maize; concerned that, despite the local manufacture of Aflasafe KE01 at KALRO *Katumani*, the application cost, estimated at approximately KES 1,000 per acre, remains a significant barrier to adoption by smallholder farmers, who constitute the majority of Kenya's agricultural producers; recognising the need for a preventive and integrated approach to food safety that addresses aflatoxin contamination at the farm level while strengthening public awareness, agricultural extension, food surveillance and health monitoring; now therefore, this House **resolves** that the National Government, through the Ministry of Agriculture and Livestock Development, incorporates Aflasafe KE01 as a subsidized biological agricultural input under the National Agricultural Input Subsidy Programme, prioritises its targeted provision and application in high-risk Agro-ecological zones and identified aflatoxin-endemic hotspots, particularly in the Eastern and Coastal regions, major irrigation schemes and other areas with a demonstrated history of aflatoxin contamination.
